Pediatric cardiologist (Steve Kirsch won't reveal who he is because the dr will lose his job), anyway this guy used to see 1 or 2 youth myocarditis cases per year. Now he's seeing at least that many every day, and other Drs are too.

How we can allow doctors to speak freely about what is really going on

Anecdotal data from a pediatric cardiologist shows an estimated 100X increase in myocarditis rates. Cardiologists can't speak out without risking retribution. I have a way to change that... instantly.

This 2.75hr interview with Dr. Peter McCullough covers everything you need to hear about Covid-19, including treatments and vaccines. This nationally recognized, highly published medical doctor is one of the 500 or so doctors in the US out of 500,000 total US doctors willing to speak out against the current policies of the medical establishment and governments. You know what these policies are since anything contrary is censored in mainstream media. If you want to be fully informed about this issue you owe it to yourself to listen to what this medical doctor has to say...~Jim

<https://rumble.com/vqx8ma-dr-peter-mccullough-with-joe-rogan-the-joe-rogan-experience-1747.html>

Dr. Peter McCullough bio/credentials from his website: [Dr. Peter McCullough](#) is an internist, cardiologist, epidemiologist, managing the cardiovascular complications of both the viral infection and the injuries developing after the COVID-19 vaccine in Dallas, TX, USA. Since the outset of the pandemic, Dr. McCullough has been a leader in the medical response to the COVID-19 disaster and has published “Pathophysiological Basis and Rationale for Early Outpatient Treatment of SARS-CoV-2 (COVID-19) Infection,” the first synthesis of sequenced multidrug treatment of ambulatory patients infected with SARS-CoV-2 in the American Journal of Medicine and subsequently updated in Reviews in Cardiovascular Medicine.

McCullough has 51 peer-reviewed publications on the infection and has commented extensively on the medical response to the COVID-19 crisis in The Hill, America Out Loud, and on FOX NEWS Channel. On November 19, 2020,

Dr. McCullough testified in the US Senate Committee on Homeland Security and Governmental Affairs and throughout 2021 in the Texas Senate Committee on Health and Human Services, Colorado General Assembly, New Hampshire Senate, and South Carolina Senate concerning many aspects of the pandemic response. Dr. McCullough has two years of dedicated academic and clinical efforts in combating the SARS-CoV-2 virus. In doing so, he has reviewed thousands of reports, participated in scientific congresses, group discussions, press releases, and been considered among the world’s experts on COVID-19.

Researchers Show How Covid Damages Immune System, Increasing Cancer Risks — Science Says “Vaccines” May Do the Same

The discovery by Swedish researchers that the SARS-CoV-2 full-length spike protein weakens the adaptive immune system by damaging a crucial DNA repair mechanism raises questions about whether mRNA COVID vaccines could do the same — and whether that might increase a person's risk of developing cancer.

Between the Forceps and the Stone

Vaccinating children with the Pfizer mRNA vaccine to protect the aged?

By: Robert W Malone, MD

<https://rwmalonemd.substack.com/p/between-the-forceps-and-the-stone>

Before your child is injected, watch Dr. Robert Malone’s statement on child COVID vaccinations

Before you vaccinate your child, which is irreversible and potentially permanently damaging, find out why 15,000 physicians and medical scientists around the world signed a declaration publicly declaring that healthy children should NOT be vaccinated for COVID-19. On behalf of these MDs

and PhDs, Dr. Robert Malone, who has devoted his career to vaccine development, provides parents a clear statement outlining the scientific facts behind this decision.

How China Controls Your COVID Life

Analysis by [Dr. Joseph Mercola](#)

<https://articles.mercola.com/sites/articles/archive/2021/12/09/how-china-controls-your-covid-life.aspx>

Ok...I'm really not an anti-vaxxer until this Covid vaccine. I got all my vaxxes as a kid and had my 5 kids all vaxxed (until gardasil). I got flu shot every year too. Covid vax got my attention...it was rushed, not fully tested and they're not properly investigating injuries and even censoring info and open discussion of it all. Now it makes me question medical science and all vaxxes. Good article on this here:

Alix Mayer is vaccine injured, but not from the COVID vaccine

Snippet from article:

The vaccine rollout began on the 30th week of the year. A look at data from the UK's Office of National Statistics indicates that the number of deaths in children aged 10 to 14 between weeks 38 and 41 of this year were *62 percent greater than the five-year average of deaths in the same age group during the same period of time*. In addition, the rise began just as children started getting the jab.

COVID Q & A with Dr. Peter McCullough #10

What’s the risk of receiving blood from a vaxed person for surgery? How do people with suppressed immune systems (Multiple sclerosis) handle COVID? Which is more dangerous, getting clots or forcing my platelets too low? I was told I have Covid hair. How long will this last as my hair is really thin now? And What should I take to stop the hair shedding? We’ll start this Q & A with an update from Dr. McCullough on the Omicron Variant...

Did FDA Report Find All-Cause Mortality Higher Among Vaccinated?

Interesting snippet from this article:

It typically takes years to determine causal links between pharmaceutical products and unintended consequences. This is why trials are often so long. This is also why it's lazy to simply brush off what injury reports are saying, especially given that [the VAERS system and the UK yellow Card system are actually showing similar rates of injury](#) – i.e. they are corroborating each other.

WOW... FROM THE LANCET:

COVID-19: stigmatising the unvaccinated is not justified

...There is increasing evidence that vaccinated individuals continue to have a relevant role in transmission... People who are vaccinated have a lower risk of severe disease but are still a relevant part of the pandemic. It is therefore wrong and dangerous to speak of a pandemic of the unvaccinated. Historically, both the USA and Germany have engendered negative experiences by stigmatising parts of the population for their skin colour or religion. I call on high-level officials and scientists to stop the inappropriate stigmatisation of unvaccinated people, who include our patients, colleagues, and other fellow citizens, and to put extra effort into bringing society together.

I don't want to go off the deep end with conspiracy theories, but I keep hearing about Smallpox lately. There were frozen vials labelled Smallpox found in a Merck lab. The only two labs in the world that should have these samples are the CDC in Atlanta, and a lab in Russia. Then I hear today that the US govt is buying smallpox meds. I'm putting this article here out there as an fyi. Just need to keep an eye on this issue kind of like I did when I saw the beginning hints of Covid in Dec 2019.

A friend pointed me to these two stories below. Lucifer/Luciferase...SATiN/Satan... Pretty close. And names do mean something. Luc is Latin for light, and fer=bearing, so "light bearing". This kind of Latin naming is common in science. I can understand this being in the antibody tests but why in the vaccine. Maybe more will come from it so I'm going to include it here. Doesn't hurt to be aware of all angles on this. Something else I think about here is how the Bible says Satan/Lucifer masquerades as an Angel of light...and how he is also the father of all lies. We are seeing this play out these days.

Luciferase Was Bad But It Gets Worse!

Senator Ron Johnson continues to stand with vax injured, bureaucracy and media continue to ignore them

<https://thelibertyloft.com/2021/11/07/senator-ron-johnson-continues-to-stand-with-vax-injured-bureaucracy-and-media-continue-to-ignore-them/>

This is a long but very powerful panel discussion. If you seriously want to hear about the vaccine issues, I highly recommend you take the time to watch this (3 hours). Why was this event not covered in mainstream media? They were invited, as were federal medical agencies leadership, but they all ignored this.

U.S. Sen. Ron Johnson (R-Wis.) held a panel discussion Tuesday, Nov. 2 with doctors and medical researchers who have treated [COVID-19](#) vaccine injuries and are researching the safety and efficacy of COVID-19 vaccines. Johnson also talked with patients who have experienced adverse events due to the COVID-19 vaccine and discuss vaccine mandates.

The senator discussed the importance of [early treatment for COVID](#), Americans' health care freedom and [natural immunity](#). Johnson covered the [impacts of mandates](#) on the American workforce and the economy, and [the lack of transparency](#) from federal health agencies in response to his COVID-19 oversight requests.

How To Counter Government Programming And Wake People Up To The Astronomical Adverse Reaction Reports

The data shows the vaccines are so bad, it's difficult for people to accept it.

-

VAERS data released Friday by the CDC included a total of 837,595 reports of adverse events from all age groups following COVID vaccines, including 17,619 deaths and 127,457 serious injuries between Dec. 14, 2020, and Oct. 22, 2021.

An Interview with Dr. Kevin Corbett

25th October 2021

There are many elephants in the room with regards to the official narrative of Covid-19. Perhaps the biggest of all, is the uncertainty surrounding the existence of SARS-CoV-2. Many scientists know this to be true, but don’t want to go near the subject, through fear of reproach.

In this heavily-researched and cited two-part interview with Dr. Kevin Corbett, we discuss the alleged isolation and purification of the SARS-CoV-2 virus, the efficacy of PCR Tests, the many historical parallels of Covid-19 with HIV/AIDS and other epidemics, and so much more.

<https://www.geertvandenbossche.org/post/what-happens-if-israel-fails-the-stress-test>

[Above two articles from: Geert Vanden Bossche received his DVM from the University of Ghent, Belgium, and his PhD degree in Virology from the University of Hohenheim, Germany. He held adjunct faculty appointments at universities in Belgium and Germany. After his career in Academia, Geert joined several vaccine companies (GSK Biologicals, Novartis Vaccines, Solvay Biologicals) to serve various roles in vaccine R&D as well as in late vaccine development. Geert then moved on to join the Bill & Melinda Gates Foundation's Global Health Discovery team in Seattle (USA) as Senior Program Officer; he then worked with the Global Alliance for Vaccines and Immunization (GAVI) in Geneva as Senior Ebola Program Manager. At GAVI he tracked efforts to develop an Ebola vaccine. He also represented GAVI in fora with other partners, including WHO, to review progress on the fight against Ebola and to build plans for global pandemic preparedness. Back in 2015, Geert scrutinized and questioned the safety of the Ebola vaccine that was used in ring vaccination trials conducted by WHO in Guinea. His [critical scientific analysis and report](#) on the data published by WHO in [the Lancet](#) in 2015 was sent to all international health and regulatory authorities involved in the Ebola vaccination program. After working for GAVI, Geert joined the German Center for Infection Research in Cologne as Head of the Vaccine Development Office. He is at present primarily serving as a Biotech/ Vaccine consultant while also conducting his own research on Natural Killer cell-based vaccines. The Research Is Clear: Ivermectin Is a Safe, Effective Treatment for COVID, so Why Isn't It Being Used?

Despite efforts to denigrate ivermectin as “horse paste” and prevent doctors from prescribing it and patients from using it, the latest research shows this safe, inexpensive drug is effective at keeping COVID patients out of the hospital.

Why "Natural Immunity" Is a Political Problem for the Regime

<https://mises.org/wire/why-natural-immunity-political-problem-regime>

More than 15 studies have demonstrated the [power of immunity](#) acquired by previously having the virus.

700,000-person [study](#) from Israel two weeks ago found that those who had experienced prior infections were 27 times less likely to get a second symptomatic covid infection than those who were vaccinated.

<https://www.medrxiv.org/content/10.1101/2021.08.24.21262415v1>

June Cleveland Clinic [study](#) of health-care workers (who are often exposed to the virus), in which none who had previously tested positive for the coronavirus got reinfected. The study authors concluded that "individuals who have had SARS-CoV-2 infection are unlikely to benefit from covid-19 vaccination."

<https://www.medrxiv.org/content/10.1101/2021.06.01.21258176v3>

in May, a Washington University [study](#) found that even a mild covid infection resulted in long-lasting immunity.

Experts Accuse CDC of ‘Cherry-Picking’ Data on Vaccine Immunity to Support Political Narrative

Mounting evidence shows natural immunity to COVID trumps vaccine immunity, but experts say the CDC is ignoring the long-standing science of natural immunity and manipulating data to support “what they’ve already decided.”

The Truth About Natural Immunity

W/Dr Mercola

Points made in this, and report includes links to studies at bottom

-15 studies now show the natural immunity you get after recovering from COVID-19 is far superior and longer-lasting than what you get from the COVID shot

-You’re Far Safer Around a Naturally Immune Person

-We’re Creating a Pandemic of the Vaccinated

-Majority of Hospitalizations Are Actually in the Vaccinated

-COVID Shot May Harm Immunity in Those Previously Infected

[**Aaron Kheriaty, MD**](#)

[@akheriaty](#)

- 1/ My response to the following claim: "Okay, yes, natural immunity is superior to vaccine immunity, but perhaps still vaccinating the Covid-recovered anyway can improve their immunity a bit more."
- 2/ The largest population-based study comparing natural immunity and vaccine immunity actually analyzed this situation: giving a one-dose Pfizer vaccine booster to those previously infected and comparing these individuals to unvaccinated previously infected individuals.
- 3/ The previously infected went from 99.74% immunity before vaccination to 99.86% after vaccination, including *asymptomatic* reinfections. The differences here before and after vaccination are negligible and have no clinical relevance whatsoever.
- 4/ The same analysis for *symptomatic* Covid reinfections found no statistically significant differences. When the efficacy of natural immunity is already extremely high, vaccination—or other interventions for that matter—cannot change it much.
- 5/ And vaccinations always involve some risk of adverse events, however small. Such risks are warranted only where there are potentially meaningful clinical benefits.
- 6/ To make this very concrete, consider the number needed to treat (NNT) to prevent one *asymptomatic* reinfection in those with natural immunity vs. the number needed to harm (NNH) by causing a vaccine adverse event.
- 7/ We'd need to vaccinate 833 Covid-recovered people to prevent 1 *asymptomatic* reinfection (NNT=833). We cannot even calculate the number of necessary vaccinations to prevent 1 *symptomatic* infection...
- 8/ ...because the data shows no differences before and after vaccination for symptomatic infections, hospitalizations, or deaths.
- 9/ According to data from the U.K. of vaccination for previously infected, the number needed to cause an additional clinically significant adverse event was 11 (NNH=11), with the most common adverse events being fever, fatigue, myalgia-arthralgia and lymphadenopathy.
- 10/ In short: to prevent one case of *asymptomatic* reinfection, we would cause over 75 cases of clinically significant adverse events (NNT/NNH = 833/11).
- 11/ The number of people harmed to prevent one case of *symptomatic* reinfection would be even higher—too high to calculate with our current data.

Fleming is also a scientific reviewer for more than 16 different journals. He was on the external clinical review board for The Lancet, but quit in protest of the fake hydroxychloroquine article they published — an act I believe demonstrates his dedication to scientific integrity. He also resigned from the British Medical Journal Open Quality due to similar concerns.

Someone's comment on a citizenfreepress.com article:

Assuming the data and graphs are authentic it looks like a similar recent trend in Hawaii as was recently reported about Israel.

The information I've studied strongly indicates that masks don't prevent viral transmission, nor does "social distancing" and "lockdowns" at best only slow transmission progress, but don't prevent it.

Based on the UK Office of National Statistics Data, only about 15.7% of all deaths in the UK between January 1st 2020 and August 8th 2021 were identified as being "with Covid". If all these deaths were actually caused by Covid, that means there is an approximate 99.86% recovery rate from Covid in the UK over the 2020/2021 period.

The purpose of Covid seems to be 3-fold:

1. Use the "pandemic" to allow governments to justify activating "emergency powers" that they then use to usher in biometric ID through the implementation of "vaccine passports."
2. Facilitate selective depopulation via the mRNA "vaccines" and the Antibody-Dependent Enhancement they induce in those people who are manipulated into taking them via the media, or illegally through "vaccine" mandates.

<https://pubmed.ncbi.nlm.nih.gov/22536382/>

3. To transfer wealth from the tax base of the world into the pockets of BigPharma and their shareholders via government.

A Few Questions...

My questions:

Show me the science on...

1. Show me the science (large peer reviewed studies) on the Safety of vaccine. Animal test results , long term studies.
2. Show me the science (large peer reviewed studies) on how these cheap non-fitted non-n95 masks that everyone's wearing protect wearer or others.
3. Show me the science (large peer reviewed studies) on how the vaccine protects other people besides yourself.

Mary's Questions:

1. Why were the pcr tests run through 40 cycles producing many false positives
2. Why were doctors instructed to report deaths differently?
3. Why are doctors and experts all over the world being censored?
4. Why are early treatments being censored?
5. And doctors being fired for using them?
6. Why are people so afraid?
7. Why did the expert say masks are not necessary one day and then yes it's necessary, then yes double up on them?
8. Why are people being coerced, forced and manipulated to take an experimental drug?
9. Why are the deaths and life altering affects of this drug being censored?
10. Why do those in power not want to investigate where this virus came from?
11. Why does my heart tell me something sinister and evil is going on?
12. Why are people not questioning this? Why are they not doing research?
13. Why the gaslighting?
14. Could this be the end times?
