Forty Years of Freedom Slipped Away So Quickly

We dare not relent lest the despotism we experienced only very recently be repeated and entrenched. We know now that it can happen, and that there is nothing inevitable about genuine progress. Our job now is to regroup and recommit to living free lives, never again believing that there are magical forces at work in the world that make our role as thinkers and doers unnecessary.

Oh, and there's one more thread you may want to scroll through. It's [right here on this threadreader app](#). It's a 257-tweet thread of headlines from the mainstream media that I compiled in March and April of 2020 during the initial "shock-and-awe" phase of the roll-out of the New Normal. You might want to do that (i.e., scroll through that thread, and recall what happened, and how it happened), because the history of 2020 and 2021 is being rewritten, right now, in real-time.

TODAY'S UPDATES...

Jim>The doctors and scientists that were warning about ADE were silenced...Now we have the proof that what they were warning about is coming to pass. The conclusive peer reviewed report was released on 12/22/22. Reports on this started appearing three days ago, and the flood gates are now opened. The first batch of reports here all cover this issue. This is huge...

How Long Is the Road to Recovery?

We may eventually get out of the Covid panic. But as long as the soil is fertile; as long as we do not question, do not doubt, but blindly believe and obey, the sword of mass panic, and all the damage done by it, still hangs over our heads. We have to rid ourselves of this threat. What is at stake is freedom and democracy.

-Comment I left for Dr. Malone on this story:

Thanks for sharing your story. As I read it, I couldn't help but think of Oppenheimer and the burden he surely carried. As scientists unravel the mysteries of our world, they are adding to the foundation of human knowledge, both good and negative findings. Unfortunately their negative findings aren't always heeded and forces beyond their control run with it anyways. This has been happening time immemorial...and there is nothing the scientists can do to stop it. What you and your wife are doing now to spread the truth is so appreciated by so many of us. Thank you. The Lord's peace to you. Merry Christmas and Happy New Year to you and your family.

Covid Infection Risk Increases With Number of Vaccine Doses By Up to 300%, Study Finds

<https://dailysceptic.org/2022/12/21/covid-infection-risk-increases-with-number-of-vaccine-doses-by-up-to-300-study-finds/>

Cleveland Clinic study conducted to demonstrate the clinical effectiveness of the bivalent vaccines accidentally finds that the risk of Covid-19 infection increases with each prior vaccination

Also too, the bivalent jab turned out to be no more than 30% effective at preventing Covid — and this at the height of BA.5 variant, against which it was targeted.

Lockdown deaths in 2020 at 194,000 are 42% of total excess deaths. This is a huge amount. Why I'm No Longer Talking to People About the Vaccine

As citizens, concerned citizens, we engage in debate not to hear ourselves talk, but to convince others of the truth of what we claim. What is supposed to happen, in a debate, ideally speaking, is that the person who makes the best and most convincing argument carries the day. What that means in everyday language is that if I best you in a debate, you change your mind. The same goes for me. Evidence changes people's minds.

Ideological Possession Is the Real Pandemic

Although pandemics of ideological possession can be fatal to entire societies, the disease provides immediate benefits to each afflicted individual, such as intellectual certainty and stability, feelings of moral superiority, an apparent simplification of life's difficult decisions and questions, avoidance of true moral responsibility, and a sense of belonging among others similarly afflicted. All of these tend to prevent self-treatment.

We Are Still Locked Down

Two Christmases came and went when we were told that meeting and celebrating the season was a biohazard and not recommended. In some places, it was forbidden. It's hard to imagine a more grim policy and it still shocks us to think back and realize that it was all deliberate. One means to reverse this horror is simple: find friends, celebrate together, share stories and ideals, promote peace and love, and work to rebuild what we have lost.

The Great Overreaction

Illogical fear, driven by a hyperactive media, and by cowardly and controlling government leaders and public health authorities ruled the day. My Day at Yale

A Great University Turns Human Trafficker

By: Dr. Naomi Wolf

<https://naomiwolf.substack.com/p/my-day-at-yale>

Jim>Snippet from above article:

“Yale receives more from HHS than it does from tuition.

Yale has received \$9 billion from HHS since 1998 — \$1.7 billion since COVID began in 2020. Yale received \$607 million from HHS for this year alone — versus the \$475 million that the university received from tuition.

In other words, Yale needs HHS more than it needs its own students.

So Yale is trafficking the bodies of its students, to please HHS and to keep that spigot open.”

-FLCCC has a good presentation on this “triple threat”. An interesting aside to this... Fellow substacker Tyrone Slothrop, brought the fraud of Tamiflu to my attention. They've lied and hidden the data on Tamiflu for going on 20years...unbelievable. Here's Tyrone's comment: “In this video (all of which is about the "Triple Threat" of flu/rsv/COVID that the news media are currently in hype-mode about), at around 30:55, Marik talks about Tamiflu and why they don't recommend it.”

I highly recommend listening to that short Dr. Marik segment on Tamiflu, it's eye opening.

"If I were to remain silent, I'd be guilty of complicity." -Albert Einstein

Jim>People should be outraged that they were not allowed to hear information contrary to the allowed narrative, and that these companies worked hand-in-hand with government entities to make this happen. The real cost of this censorship and manipulation is staggering. Regarding Covid, countless lives were lost. Regarding Elections, a coup took place. For 90% of the people that will not question and dig for truth, for all sides of a story, they have no idea what has happened or they choose to stick their head in the sand and ignore it all...So sad...

The Twitter Files: Just the Beginning

What pertains to Twitter is surely true at Google (therefore YouTube), Facebook (therefore Instagram), Microsoft (therefore LinkedIn), and even Amazon (many great books were blocked from publication and distribution). At this point, one would have to be completely blind about the reality of what we've dealt with for almost three years: in the name of virus control, the country, its laws and traditions, its liberties and rights, were taken over by a junta with different ideas.

Jim>I originally posted the following three part review of Stew Peters "Died Suddenly" documentary by Matthew Crawford (Rounding the Earth Substack) on Friday prior to actually reading it. I've now had a chance to read it, and it's a very thorough and well written review. He obviously doesn't have a whole lot of respect for Stew and he doesn't agree with how most topics brought up in it don't cover the actual facts accurately. One thing I was glad to see is that he doesn't debunk the fibrous clots issue, but wants it investigated better - which I totally agree with. We need to figure out why and when these clots are forming! And if it's real, then people need to know about this. That's my primary reason for recommending folks watch the documentary....

<https://roundingtheearth.substack.com/p/stew-peters-chaos-credibility-that-e89>

Jim>Here's my comment I posted on the above set of reports: "Thanks for writing this, it's an excellent set of reports. I've been wary of Stew since the first time I watched him because I felt he exaggerated or misrepresented facts. That said, he presented shocking video of those clots... We need to get to the bottom of these fibrous clots. Some are reporting that most embalmers aren't seeing them, but do we really trust that they are being honest? We know for a fact that people are sticking to the narrative no matter what, in order to keep their livelihoods intact, so I don't trust them. I want to see a legit stinking study of the darned things. Maybe this documentary together with legit analysis by investigators like you will get enough people questioning this to make that happen."

Jim>And then we have this report...

Booster mandates in young adults are expected to cause a net harm: per COVID-19 hospitalisation prevented, we anticipate at least **18.5 serious adverse** events from mRNA vaccines, including **1.5–4.6 booster-associated myopericarditis** cases in males (typically requiring hospitalisation). We also anticipate **1430–4626 cases of grade ≥3 reactogenicity interfering with daily activities** (although typically not requiring hospitalisation).'*

New Autopsy Report Reveals Those Who Died Suddenly Were Likely Killed by the Covid Vaccine

A major new autopsy report has found that three people who died unexpectedly at home with no pre-existing disease shortly after Covid vaccination were likely killed by the vaccine. A further two deaths were found to be possibly due to the vaccine.

Retrospectives and Reviews of Pandemic Countermeasures

In response to this hypothetical scenario, governments panicked, ignored their own pandemic preparedness plans and adopted high-risk strategies that imposed restrictions on individual liberty never seen before. These countermeasures caused major harms and collateral damage, including loss of lives from delayed medical care and the medium-term aftereffects of increased unemployment and increased extreme poverty (for example the World Bank found that 'the pandemic led to 97 million more people being in [extreme] poverty in 2020').

Jim>excellent report here by Dr. Tenpenny. I'll admit... For many years I didn't think twice about getting the annual flu shot. I trusted medical authorities. They showed up at the office every October, everyone got in line for the shot...they made it so easy to get. I remember getting mild illnesses fairly frequently right after the shot, but thought that was just normal immune system response. But then the last two years that I received the shot, fall 2018 & 2019, I ended up getting very sick with flu a few months later (the 2020 illness may have been early Covid actually - I tested negative for flu but had severe flu symptoms so they went ahead and prescribed Tamiflu - this was in late Jan 2020 before they were testing for c19). That, together with what we've seen the past two years with these mRNA clot shots has convinced me to never get these flu shots again, or any other stinkin vax for that matter. The medical authorities have permanently lost my trust and my RN wife's trust (whom I'm so thankful for helping to open my eyes!)... And we're passing this mistrust on to our five grown kids, and everyone else we can.

Indeed, it would not be going too far to say that the eruption of irrationality and hysteria in America during 2020-2021 most resembled not 1954, when Senator McCarthy set the nation looking for communist moles behind every government desk, or 1919, when the notorious raids of Attorney General Mitchell were rounding up purported Reds in their tens of thousands, but the winter of 1691-1692. I don't agree with everything in this movie, but I am glad to see the info on fibrous clots getting out there for all to see. I do highly recommend this "Died Suddenly" movie. Multiple embalmers interviewed and they show a couple of short segments that are pretty gross pulling the LONG fibrous clots out of cadavers. This is just mind blowing that this stuff is happening and not a peep from mainstream media! Multiple MD's are also interviewed explaining the many adverse events (cancers, etc. ... the large increase in stillbirths is shocking). It's just unbelievable the huge coverup we're seeing.

"If I were to remain silent, I'd be guilty of complicity." -Albert Einstein

Jim> Appreciate Dr. Malone's commentary on the Died Suddenly documentary. I've been leery of Stew Peters from early on. That said, I was glad to see a focus on these blood clotting issues in a way that while shocking, might actually break thru the censoring/gaslighting and let people see what is happening. It's so discouraging when folks aren't allowed to see the potential for adverse events and death. The other side is responsible for many deaths because of this. Our side isn't perfect, and some fighters cross lines that shouldn't be crossed. Perhaps they mean well but are just desperate to get eyes opened in this crazy environment. That doesn't make it right... But maybe what Stew has put together here will open some eyes, and when these folks eyes open, they will find the truth tellers like Dr's Malone, McCullough, etc. that are fighting the noble and honest battle.

Jim> Keeping this link to the "Died Suddenly" documentary at the top of this feed. You can read commentary on this movie in my daily feeds for the past few days. I don't agree with everything in this movie, but I am glad to see the info on fibrous clots getting out there for all to see. I do highly recommend this "Died Suddenly" movie. Multiple embalmers interviewed and they show a couple of short segments that are pretty gross pulling the LONG fibrous clots out of cadavers. This is just mind blowing that this stuff is happening and not a peep from mainstream media! Multiple MD's are also interviewed explaining the many adverse events (cancers, etc. ... the large increase in stillbirths is shocking). It's just unbelievable the huge coverup we're seeing.

Jim> Excellent take on Died Suddenly by an MD. My wife and I watched it last night and even though I've been very aware of these clotting issues, it was still shocking to see them being pulled out of dead bodies. I know there are some mistakes made in it (esp that huge clot being removed from the beating heart), but the facts of grainy micro clots and those long fibrous clots shouldn't be ignored, and I'm hoping it gets more people's attention maybe waking more up to the truth of these mRNA shots. Unfortunately the fact checkers and mainstream media will focus on the few mistakes and probably succeed at discrediting it.

Time to Unmask the Truth

It is astounding hypocrisy to recommend that young children wear masks in their own homes, then go maskless at an indoor crowded event a few days later. Health officials must immediately provide policy-level evidence of the direct benefit of masking to kids themselves or be willing to defend their misguided and harmful advice in a debate. Please embrace informed consent and patient autonomy, stop allowing our children to be used as pawns in militaryfear propaganda, and as adult COVID-19 shields.

Three Medical Policies that Need Immediate Changing

One thing most people can agree on: COVID-19 won't be the last public health emergency. There are already concerning headlines about an early spike of R.S.V. impacting children. The leaders of captured health agencies must learn from their mistake of allowing the pharmaceutical industry unimpeded control of pandemic health policy. Americans are incredibly forgiving people willing to show grace, but step one in that process is a willingness for those in charge to admit their mistakes.

The Covid/Crypto Connection: The Grim Saga of FTX and Sam Bankman-Fried

The rest of us are left with the bill for this obvious scam that implausibly links crypto and Covid. But just as the money was based on nothing but puffed air, the damage they have wrought on the world is all too real: a lost generation of kids, declined lifespans, millions missing from the workforce, a calamitous fall in public health, millions of kids in poverty due to supply-chain breakages, 19 straight months of falling real incomes, historically high increases in debt, and a dramatic fall in human morale the world over.

Tribunals Would Introduce Dangers of their Own

The danger is too great that a government agency or commission empowered to sit in judgment over individuals who were in office during the two years starting in March 2020 will abuse its power. Relic of the Past or Embedded Dystopia?

Let's assume for the moment, though it's by no means guaranteed, that the COVID era will in fact become a time-bound relic of the past, as opposed to an embedded dystopia that lasts into the foreseeable future.

Is it too soon to begin talking about 'survivors' of the COVID era? Who will they be? How will they talk about that time to younger generations, or to visitors from the few countries that didn't fall into the trap?

The Dangers of the Biden Pandemic Plan

Each of these cut corners has since created policy controversies and uncertainty that better trials would have avoided. Because of the pressure to produce a vaccine within 130 days, President Biden's pandemic plan will likely force randomized trials on future vaccines to cut the same corners. This policy effectively guarantees that lockdowns will return to the U.S. in the event of a new pandemic.

Was the Pandemic Orchestrated as a Trial Run for Responding to a Biological Attack?

The pandemic response was largely a creation of the U.S. biodefence network, with China joining in after January 23rd. U.S. intelligence officers had been following the virus (which they, like the CCP, knew was lab-engineered) from mid-November, and the biodefence network made sure news of the virus got out once doctors noticed it, spreading alarm before there was anything really to be alarmed about and treating it immediately as a biosecurity threat.

Jim>Wow, this is a powerful piece! While it doesn't mention covid directly, it does speak to the forces that allowed the Covid lies to happen, so I'm including it here. My bottom line is that every single one of us are sinners, no matter what race or creed...God loved us regardless of this and came to earth as the son Jesus Christ and paid the price for our sins so that we could be reconciled to God, and when we seriously accept that precious gift we're God's for good. Then we need to love everyone whatever race or creed, and spread this good news about God. Don't spread the hate as we see reported in this article.

Only Experts Can Fill Ice Cube Trays

Those simple instructions are comforting, now that our lives also come with their own set of instructions. Those superiors who somehow missed their destinies in writing instructions for plastic ice cube trays now work in public health. Pay no attention to the accumulated knowledge from prior generations. For goodness sake don't read for yourselves, despite virtually everything being available online. And at all costs remember that children do not deserve special attention.

Wot's in the shots? Graphene oxide? Nanobots? Author Rebecca Weisser; Spectator Australia; What is in the Pfizer vaccines? Recently, Dr David Nixon, a Brisbane GP, decided to find out, putting...

droplets of vaccine and the blood of vaccinated patients under a dark-field microscope. So is there graphene oxide in the Pfizer shots? What Nixon found, and filmed, is bizarre to say the least.

The Long Road Ahead

The reality is that people do still vote for their captors. They really do not want to admit the damage they have been party to, even if that damage is to their own children, their own businesses, and their own communities. The big takeaway is that what Charles MacKay said in 1841 really does hold: “Men, it has been well said, think in herds; it will be seen that they go mad in herds, while they only recover their senses slowly, and one by one.” Recovering senses takes years, not months.

Evidence of Early Spread in the US: What We Know

We don't know when these people in the three Western states (or the other six Midwestern and Northeast states) may have been infected – but for probably most of them it would have been many weeks or even months before they donated blood. That is, the "Red Cross blood study" provides compelling evidence that early spread in America probably occurred by at least early October and perhaps even September.

Jim>Wow, this is a powerful piece! While it doesn't mention covid directly, it does speak to the forces that allowed the Covid lies to happen, so I'm including it here. My bottom line is that every single one of us are sinners, no matter what race or creed...God loved us regardless of this and came to earth as the son Jesus Christ and paid the price for our sins so that we could be reconciled to God, and when we seriously accept that precious gift we're God's for good. Then we need to love everyone whatever race or creed, and spread this good news about God. Don't spread the hate as we see reported in this article.

Government's National Security Arm Took Charge During the Covid Response

HHS – the agency designated by statute and experience to handle public health crises – was removed, and FEMA – the agency designated by statute and experience to “help people before, during and after disasters” like earthquakes and fires – was put in charge. But the pandemic planning document was not updated to reflect that change or how that change would affect the Covid response.

Jim>Wow, this is a powerful piece! While it doesn't mention covid directly, it does speak to the forces that allowed the Covid lies to happen, so I'm including it here. My bottom line is that every single one of us are sinners, no matter what race or creed...God loved us regardless of this and came to earth as the son Jesus Christ and paid the price for our sins so that we could be reconciled to God, and when we seriously accept that precious gift we're God's for good. Then we need to love everyone whatever race or creed, and spread this good news about God. Don't spread the hate as we see reported in this article.

We Must Have Accountability

The current crop of failed fearmongering virus prophets coupled with the low-uptake of boosters is stark and terrible reminder that the institutions that prided themselves on public health damaged the public trust more than anything else. Your trust should be in the bedrock of our Constitution, not in some self-endowed title of "science." Public trust in our institutions is sinking and it will require a public trial of our policy decisions to right the ship.

Senior Editor At British Medical Journal Speaks Out About COVID-19 Vaccine Safety Concerns IN BRIEF

The Facts:

-In a recent interview with German TV, senior editor at the British Medical Journal Dr. Peter Doshi expressed that that "Our legacy media has not done a good job in providing balanced coverage about the vaccines."

-He emphasized how "we're not getting the information we need to make better choices and to have a more informed understanding of risk and benefit."

Reflect On:

-With so many scientists, doctors and published peer-reviewed science raising concerns, why haven't these concerns been properly communicated to the citizenry

-Why has there been such a big campaign to censor these concerns and deem them a "conspiracy theory?"

-Why have pharmaceutical companies not released all the data they accumulated during their clinical trials for COVID-19 vaccines?

1. During [the interview](#), Dr. Marik also discussed the abject failure of many high-impact medical journals to publish factual, data-driven research studies, noting that, “I used to think that what I read in the medical journals was the truth. Now I know it is completely false.”
2. **A MUST READ ABOUT SPIKE PROTEIN DISEASES.** In this [new and meticulously detailed report](#), **Epoch Times** reporter **Marina Zhang** writes about how spike protein disrupts immunity in millions post-COVID infection or vaccination.
3. **“WILDFIRE CANCERS”.** Jan Jekielek also interviewed Dr. Ryan Cole, who discussed the alarming rise of “wildfire cancers” and the dangers of the spike protein. Watch that interview [HERE](#).
4. **These spike proteins are bad dudes. Yeah...REALLY bad dudes.** Our Dr. Been has lots to tell you about them and the damage they can do to our bodies. In fact, it's because Dr. Been wants us to know all we can about spike protein that he is bringing us TWO new short lectures on the subject this week.

In [Episode 28](#) of Long (COVID) Story Short with Dr. Been, we learn how spike proteins disrupt nitric oxide and how they alone can cause dysregulation of the ACE2 bearing cells—used by SARS-CoV-2 to gain entry into human cells. [Episode 29](#) is a short course in Spikopathy, as Dr. Been explains how spike protein causes pathologies in our tissues and vessels. The discussion includes a review of the important pathologic mechanisms behind the diseases caused by the spike protein.

In an [Op-Ed](#) posted this week on *Real Clear Markets*, Dr. Pierre Kory, Chief Medical Officer of the FLCCC, writes: ***“With a stroke of [California] Governor Gavin Newsom’s pen, bureaucrats at the Medical Board of California have the power to [strip the licenses](#) of medical professionals who dare question state-sponsored speech regarding Covid-19. In other words, a doctor who spreads so-called “misinformation” can lose their livelihood. [I’ve written previously](#) on the dangers of this concept, but now that it is a reality, here are five consequences of this Orwellian approach.”***

Jim>Wow, this is a powerful piece! While it doesn't mention covid directly, it does speak to the forces that allowed the Covid lies to happen, so I'm including it here. My bottom line is that every single one of us are sinners, no matter what race or creed...God loved us regardless of this and came to earth as the son Jesus Christ and paid the price for our sins so that we could be reconciled to God, and when we seriously accept that precious gift we're God's for good. Then we need to love everyone whatever race or creed, and spread this good news about God. Don't spread the hate as we see reported in this article.

Biden Launches #VaxUpAmerica Tour, as Latest Research Shows New Boosters No Better Than Old Against New Variants

President Biden today urged "all Americans" to get an updated COVID-19 vaccine and pleaded with Congress to continue funding the vaccines and COVID-19 treatments. Meanwhile, the authors of a new study released Monday found the new bivalent boosters were no better than the old boosters at protecting against the latest Omicron variants.

It made world headlines in August 6, 2021, when, in a NIH presentation, principal investigator Dr. Ed Mills revealed its explosive results, on the very day it enrolled its last patients. The headlines that reported on the results were loud and clear: Ivermectin [failed as a drug for COVID](#): We were able to establish that the trial had [underdosed its highest-risk ivermectin patients](#). It also suffered from [randomization failure](#)."
1. New York Times best-selling author Michael Capuzzo's [RESCUE Substack](#) produced some explosive investigative reporting that has become part of a major lawsuit by Drs. Paul Marik, Robert Apter and Mary Bowden to stop government interference in 'The Practice of Medicine'.
2. **From a recent blog post by Neurologist Dr. Suzanne Gazda:**
Current data indicates that up to 70% of long COVID patients are experiencing signs of cognitive impairment. It's important to note that when I speak about long COVID, I am also referring to those with post-vaccine injuries.
 - Why is brain fog such a common symptom in long COVID?
 - Why do these symptoms linger and in some never resolve?
 - Could brain fog be a sign of something more ominous in the works? Read her blog post [HERE](#) in its entirety.
1. **A stunning post from the ["Resisting the Intellectual Illiteratti"](#) Substack, by a writer called 'Ashmedai': THE MORAL DISINTEGRATION OF ANDREW HILL** "After playing a critical role in preventing patient access to Ivermectin, Andrew Hill authored a paper advocating for expanded access to Paxlovid. Read the entire essay [HERE](#).
2. Our Dr. Pierre Kory talks to [Newsmax's Eric Bolling](#) and weighs in on the story that broke this week out of Boston University. Did researchers at Boston University devise a new and deadly COVID strain in the lab? **Said Dr. Kory: "Why are we playing with more viruses in the lab? To find new therapeutics? We have therapeutics in repurposed drugs."**

In Search of Safety Signals – Let the Light Shine In

BY DR. MICHAEL TOMLINSON

Policy in public health should be only made on the basis of the evidence available. The evidence available indicates that the strategy of universal vaccination of the whole population exposed some groups to unnecessary risk, and that a differentiated risk-based strategy would have led to better outcomes. Some countries are now belatedly moving in this direction at least for boosters.

My bottom line is that every single one of us are sinners, no matter what race or creed...God loved us regardless of this and came to earth as the son Jesus Christ and paid the price for our sins so that we could be reconciled to God, and when we seriously accept that precious gift we're God's for good. Then we need to love everyone whatever race or creed, and spread this good news about God. Don't spread the hate as we see reported in this article.

How Deadly Is Covid? A Major Study Defies Conventional Wisdom

In the new study, which is currently undergoing peer-review, Prof. Ioannidis and colleagues found that across 31 national seroprevalence studies in the pre-vaccination era, the average (median) infection fatality rate of COVID-19 was estimated to be just 0.035% for people aged 0-59 years people and 0.095% for those aged 0-69 years.

How Can Severe Mental Illness be the Deadliest Covid Comorbidity?

It is not remotely plausible that "learning disabilities" have a physiological connection or influence on the pathological course of covid infection or disease, certainly not en masse that would show up as a stronger safety signal than both age and obesity. The proposition that an otherwise perfectly healthy individual with a learning disability is at a higher risk from covid than your 83-year-old grandma is so absurd that it should call the entire study into doubt.

Small Steps Toward Truth and Justice

Did anyone really believe on the eve of the sixth lockdown that it would last only as announced? Or did we all suspect another lie? This is a much harder lesson to take – it opens up uncomfortable lines of enquiry such as “what else did /do they lie about?” From there it is a short step to demanding that there be accountability for the lies – and further, that every future announcement is challenged.

Jim>Wow, this is a powerful piece! While it doesn't mention covid directly, it does speak to the forces that allowed the Covid lies to happen, so I'm including it here. My bottom line is that every single one of us are sinners, no matter what race or creed...God loved us regardless of this and came to earth as the son Jesus Christ and paid the price for our sins so that we could be reconciled to God, and when we seriously accept that precious gift we're God's for good. Then we need to love everyone whatever race or creed, and spread this good news about God. Don't spread the hate as we see reported in this article.

Evidence of harm

A short collection of key pieces of evidence showing the COVID vaccines are not "safe and effective." Not even close. They are the most deadly vaccines we've ever produced.

How do we sway the minds of people who refuse to see the negative data?

Collecting more negative data on the vaccine isn't going to change anything. The problem is getting people to consider the possibility that they have been fooled.

Why Did Covid Cause Thousands of Deaths in Spring 2020 Even Though it Had Been Hanging Around All Winter?

There is now no shortage of evidence that the coronavirus had begun spreading undetected all over the world by autumn 2019 at the latest. So why did the virus suddenly become much more infectious in February 2020; why did it go from circulating at a low level alongside flu and other viruses to displacing them and infecting a relatively large proportion of the population in a space of weeks?

Jim>Wow, this is a powerful piece! While it doesn't mention covid directly, it does speak to the forces that allowed the Covid lies to happen, so I'm including it here. My bottom line is that every single one of us are sinners, no matter what race or creed...God loved us regardless of this and came to earth as the son Jesus Christ and paid the price for our sins so that we could be reconciled to God, and when we seriously accept that precious gift we're God's for good. Then we need to love everyone whatever race or creed, and spread this good news about God. Don't spread the hate as we see reported in this article.

Jim>Wow, this is a powerful piece! While it doesn't mention covid directly, it does speak to the forces that allowed the Covid lies to happen, so I'm including it here. My bottom line is that every single one of us are sinners, no matter what race or creed...God loved us regardless of this and came to earth as the son Jesus Christ and paid the price for our sins so that we could be reconciled to God, and when we seriously accept that precious gift we're God's for good. Then we need to love everyone whatever race or creed, and spread this good news about God. Don't spread the hate as we see reported in this article.

Quo usque tandem abutere, Corona, patientia nostra?

The big open question, however, is what the political fallout will be from science’s return to truth. If it helps the constitutional state turn away from its absurd noble goals – war against a virus, fight against a climate change – and make it adhere to its real task – regulating the peaceful coexistence of people while respecting the freedom and dignity of the individual – then the many victims of the Covid hysteria will perhaps not have suffered entirely in vain.

Did California’s Governor Gavin Newsom just take medical insanity to a whole new level?

Yep, he went there. Yesterday, Newsom signed into law AB 2098—the state bill that allows for the criminalization of doctors for spreading so-called "misinformation".

Read—and most importantly SHARE—[Dr. Marik's compelling essay](#).

In a [stunning new report](#), the *Journal of the American Medical Association* is urging mothers to avoid breastfeeding after receiving a COVID vaccination.

That is because a new study shows that trace amounts of mRNA have now been identified in breast milk.

In a [new video post](#), our Dr. Mobeen Syed (Dr. Been) explains the highly troubling significance of this finding. “This is the first time ever that a study is showing the travel of packaged mRNA all the way to a secretion system and become part of the secretion,” said Dr. Been.

If you will read only one news story today, this just has to be the one.

In his story, author Justus R. Hope, M.D. writes about “two forces of nature”—Dr. Tess Lawrie and Dr. Pierre Kory — both of whom he says “represent the best in modern physician ethics.”

Dr. Hope has been inspired over and over again by their example.

“As a citizen of the world, a parent, and a physician, I try to listen to everything Kory or Lawrie write or say because, in a corrupt world devoid of honest news sources, I know of a few that I can always count on that will lead me in the correct direction.

The world's citizens should read the [Substack news columns](#) of these leading physicians during a time when the mainstream is often misleading them.”

[READ](#) Dr. Hope's essay. It is at once poetic, stirring...and, of course, hopeful.

IMPORTANT:

Dr. Lawrie's most recent [Substack post](#) is about Dr Aseem Malhotra — a highly respected consultant cardiologist who actively promoted Covid-19 vaccination — until the sudden and tragic death of his father from suspected vaccine-induced cardiac arrest led him to uncover the truth about these toxic injections. Dr. Malhotra has now published [a paper](#) on his findings in *Journal of Insulin Resistance*.

Also “The Digger” (aka Phil Harper) has written a [powerful Substack essay](#) on Dr. Malhotra.

On this week's [FLCCC Weekly Webinar](#), Dr. Pierre Kory and Scott Marsland, FNP discussed where we are today with COVID-19, and answered many of your questions.

“Since January 1, in the laboratory I'm seeing a 20 times increase of endometrial cancers over what I see on an annual basis,” reported Dr. Ryan Cole.

Dr. Cole — who will be a speaker at the FLCCC's upcoming inaugural [education conference](#) — said the vaccines seem to be causing serious autoimmune issues, in a way he described as a “reverse HIV” response.

According to Cole, in patients with HIV, there is a massive suppression of “helper T-cells” which causes immune system functions to plummet — leaving the patient more susceptible to a variety of illnesses. Similarly, Cole describes that, “post-vaccine, what we are seeing is a drop in killer T-cells, in CD8 cells. And what do CD8 cells do? They keep all other viruses in check.”

Read the entire story [HERE](#).

"The Most Important Voices in the World."—The FLCCC News Capsule for September 25, 2022

A Compendium of the Latest COVID-19 News, Facts & Features

By: **FLCCC Alliance**

1. **Dr Marik interview** [the interview](#)
2. The Highwire production team did some incredible digging and discovered a stunning video that captured the moment at a Critical Care conference in Belfast, Northern Ireland where Dr. Marik and Dr. Kory first met in person — right before the start of the pandemic in January 2020 — and fought their first battle together against a corrupt medical system. [This interview](#) is so monumental because viewers will see for themselves **for the first time** how the unscrupulous, cold-blooded behavior of medical academia was already at work — poisoning and degrading rigorous, reputable science — before the first case of COVID hit American shores.
3. Dr. Kory has done it again. [Another Substack](#) that tells a damning, tawdry tale of deceit, corruption, and the vile love of profit over people.
4. From Dr. Paul Marik's recent Substack post: ***"This is a story about how, while researching treatments for COVID-19, I discovered a way to lose weight and cure myself of Type 2 diabetes — by changing my approach to eating.*** Read about Dr. Marik's remarkable journey [HERE](#). Also, here is a link to his [SLIDE PRESENTATION](#) from his [FLCCC Weekly Update lecture](#) last week.
5. In [Episode 26 of Long \(COVID\) Story Short](#), our Dr. Been presents a mesmerizing review of near-infrared light therapy. According to recent data, this therapy can reduce inflammatory mediators by 50% and Interleukin 6 by 80%! Watch and learn!
6. During Wednesday's [FLCCC Weekly Update](#), host Betsy Ashton welcomed Lori Bontell along with attorneys Jeff Childers and Shawn McBride. The discussion focused on rigid hospital COVID protocols
7. During this week's [RECLAIMING MEDICINE CONFERENCE](#), hosted by the Australian Medical Professionals Society, Dr. Pierre Kory spoke about "The fight for early treatment and overcoming censorship and reprisal." (Begins at 2:17:30)

Marilyn's Story: Family Says Link Between COVID Vaccines and Injuries an 'Inconvenient Truth'

In the fall of 2020, Cathy Nagy's 84-year-old mother-in-law, Marilyn, was living independently when she began showing signs of mild dementia. But after receiving two doses of Pfizer's COVID-19 vaccine — then getting the virus anyway — Marilyn's condition rapidly declined.

A Compendium of the Latest COVID-19 News, Facts & Features

<https://flccc.substack.com/p/why-i-call-our-country-the-united>

-includes following reports:

1. This is one serious takedown of the "criminal censorship" of ivermectin committed by high-impact medical journals. It is written by our über-courageous president and chief medical officer, Dr. Pierre Kory. If you can, stop what you're doing right now and [read this](#).
2. In a massive study from Brazil led by our Dr. Flavio Cadegiani— with co-authors Lucy Kerr, Fernando Baldi, Raysildo Lobo, Washington Luiz Assagra, Fernando Carlos Proença, Juan J. Chamie, Dr. Jennifer A. Hibberd and Dr. Pierre Kory—the non-use of ivermectin was shown to be associated with a 12.5-fold increase in mortality rate and a seven-fold increased risk of dying from COVID-19 compared to the regular use of ivermectin. [the study](#)
3. **"It's all a big fat lie. More precisely a big low-fat, high-carbohydrate lie."**https://odysee.com/@FrontlineCovid19CriticalCareAlliance:c/Weekly_Webinar_September14:d
4. What happens when RNA, like an unwanted houseguest, simply won't go away? New, ground breaking case reports demonstrate for the first time the evidence for SARS-COV-2 persistence. Our [Dr. Been's review](#) is important viewing.
5. **WAS THE OMICRON VARIANT GENETICALLY MODIFIED?** [A new paper](#) by Dr. Hideki Kakeya and Dr. Yoshihisa Matsumoto showing that the Omicron variant is highly likely a product of artificial genetic modification, has been accepted to a journal after two rounds of peer reviews. "Our paper doesn't definitively say the Omicron is lab-made. It just says non-natural origin of the Omicron is highly likely.

6. On Substack, a writer called Snoops McGoo has offered up a plethora of screenshots of emails and internal communications that [provide more proof](#) that the Public Health Agency of Canada and the Canadian federal government knew ivermectin to be a lifesaver when it comes to COVID.
7. **BREAKING NEWS FROM ICAN:** The Informed Consent Action Network (ICAN) has obtained a court order requiring the CDC to release V-Safe data that includes over 137 million health entries following COVID-19 vaccinations. FROM THE [ICAN PRESS RELEASE](#): Despite the CDC's ability to immediately release this deidentified data [pursuant to its own protocol](#), the CDC took the position that "the information in the app is not de-identified" and so it would not produce it. Thus, in December 2021, ICAN [sued](#). ICAN also submitted an [additional request](#) to address the agency's objection, demanding, "All data submitted to v-safe since January 1, 2020," and when the CDC still refused to release the data, ICAN [sued again](#). Now, after months of litigation, [the court has ordered](#) that, by September 30, 2022, the CDC must produce the first batch of over 19 months' worth of data collected from tens of millions of v-safe participants between December 14, 2020 and July 31, 2022!
8. In a compelling [new Substack](#), The Digger (aka Phil Harper) reviews Dr. Peter McCullough's important [new study](#), which presents evidence that vaccination induces a profound impairment in type I interferon signaling, with diverse adverse consequences to human health.

Recent Ontario vaccine report shows 21,439 ‘adverse events’

All confirmed events that met the provincial surveillance definition were vetted by a strict process that requires reported events to be assessed by a public health unit that are then assessed by a provincial regulator before finally assessed by a federal organization.

An Interview with a Very Dangerous Man

Or I could ask, for example, how it is that the number of deaths per million in that terrible and irresponsible country called Sweden, where there were no generalized lockdowns and no mandatory masking, are less than in Spain with its rather strict confinement regime? Or about the fact that in the US many states without lockdowns and without the mandatory public masking (e.g. Florida, Georgia and now Texas) have the same or better results in cases and deaths than several states (California, New York, New Jersey, Massachusetts) with much stricter "mitigation" regimes?

1. In an important new Substack post, our Dr. Pierre Kory implores his colleagues here in the United States and around the world to summon the courage to protect their patients: [HERE](#)
2. Dr. Paul Marik was on 'The Absolute Truth' with Emerald Robinson to discuss the use of vaccines during pregnancy, the spike protein, recent reports from embalmers across the country, and more. Watch it: [HERE](#)
3. Dr. Kory joined Greg Hunter on USA Watchdog for [a discussion](#) concerning data on spike-induced disease, treatment and more. "This is a humanitarian catastrophe, and it is being ignored, suppressed and censored through a well-organized global propaganda campaign," said Dr. Kory.
4. Dr. Kory was also a guest on the Charlie Kirk Show to discuss global censorship, data on repurposed drugs, and where we go from here. [Listen now!](#)
5. Dr. Alan Bain wants you to know that there are doctors out there who will fight for you. A member of the FLCCC for over two years now, Dr. Alan Bain has been to court three times to argue for his patients to get the FLCCC protocol. He's won permission from the judge every time by arguing that ivermectin has TWENTY actions, and is not just anti-viral. His patients have all recovered. [WATCH](#) his incredible MyStory now.
6. This week's episode of our Dr. Been's 'Long (COVID) Story Short' is all about how to maximize autophagy - it is a must watch! View [HERE](#) and please share.
7. One of the most important journalistic voices in this sorry era of censorship has been Mary Beth Pfeiffer. In her [extraordinary new essay](#), Mary Beth — writing for Michael and Teresa Capuzzo's Substack [Rescue](#) and [Trial Site News](#) — lays out those ever-pesky truths.

What Makes All Vaccines So Dangerous?

The Silent Epidemic of Microstrokes

By: “A Midwestern Doctor” (MD)

Jim>snippet from this - my wife and I have seen this too:

“Moulden observed many cases of these same neurodegenerative processes occurring in the elderly after vaccination (like many of the readers here, [I have come across](#) numerous cases of permanent dementia rapidly onsetting after the spike protein vaccines). Moulden (and some of my mentors) thus believed Alzheimer’s disease was another manifestation of this same disease process.”

Jim>another snippet...

“Moulden eventually concluded a non-specific response to toxins and infections was responsible for a wide range of diseases, and that the fundamental error of our medical model was being focused on the countless causative agents rather than the universal response itself (this was the basis for Moulden's critique of germ theory). Moulden announced he had developed a means to address this response, but unfortunately died in suspicious circumstances shortly after the announcement, leading to his work being lost (this is a key reason why my mentors have not published on this topic and part of why I write anonymously).”

"The Results are Hard to Refute."—The FLCCC News Capsule for September 4, 2022

A Compendium of the Latest COVID-19 News, Facts & Features

<https://flccc.substack.com/p/the-results-are-hard-to-refutethe>

-includes the following reports:

-If you ever had any doubt that ivermectin could have saved hundreds of thousands of people who died waiting for new, more expensive and barely tested drugs to become available, then this [new study](#) will change that instantly. THIS IS A MONUMENTAL STUDY THAT HAS YIELDED EVEN MORE SCIENTIFICALLY IRREFUTABLE DATA.

-Now, to aid in your withdrawal from the steady drip of lies about ivermectin, here is an extraordinary new film from filmmaker Mikki Willis: *Ivermectin: The Truth*. [astonishing film](#)

-A member of the FLCCC team sent around [this message](#) written by an anonymous person. Dr. Kory found it extremely powerful and felt it needed to be shared.

We agree, Dr. Kory.

-Dr. Suzanne Gazda was our special guest on the [FLCCC Weekly Webinar](#) to discuss “Neurological Issues Post-COVID”.

-This week, our Dr. Been discusses a large-scale matched pair study from the UK, where researchers describe the top risk factors for long COVID.

-Our own Kristina Morros, CRNA, takes you shopping for everything you need to build or top up your “Just-in-Case” COVID Kit! Watch [HERE](#)

-Another inspiring MyStory! Hear from this lovely woman, who at aged 70, had what she needed just in case she got COVID. She treated early, recovered, and shared her [beautiful story](#) with us.

It will be a 100 years before doctors are trusted again. They have lost this old man completely. When you are "for sale" and you have decided to dishonor your profession by ignoring the Hippocratic oath, you are nothing more than a witch doctor with a stethoscopes and white coat cashing in on the very people you should be helping. So the big three of lying scumbags is now lawyers, used car salesmen and doctors.

CDC quietly scrubs website of claims that spike protein doesn't stay in body after mRNA jabs

The federal agency previously stated that the spike protein produced in response to the shots doesn't remain in the body. That statement has since been quietly scrubbed from the website.

Moderna and Pfizer: Cat Fight!

There is absolutely no theory of political economy in existence that could possibly justify this combination of 1) private company with vast tax funding, 2) government-enforced monopoly claims of ownership, 3) indemnification against damage claims, 4) publicly-traded stocks, plus and 5) a forced customer base. German Researchers Examine Covid “Vaccines” and Vaccinated People’s Blood and Say Stop Vaccinations

The German Working Group for Covid-19 Vaccine Analysis has made its ‘Summary of Preliminary Findings’ publicly available. In a wide-ranging report dated 6 July, the Group described the toxic substances found in all Covid-19 “vaccine” samples analysed and the marked changes seen in blood samples taken from vaccinated people. The Group also found that the greater the stability of the envelope of lipid nanoparticles, the more frequent the vaccine side effects.

Follow the Science, Reconsidered

Science is like a weathervane: it gives you information, which you can use to decide on a course of action, but it doesn’t tell you what to do. The decision belongs to you, not to the swirling metal rooster. A weathervane can tell you there’s a stiff wind coming in from the northwest, but it can’t tell you how to respond to the data.

Gateway2Freedom Conference

August 25-27 St. Louis

Gateway to Medical Freedom is the premier (medical) freedom conference of the summer in the Midwest.

Our goals of the event include:

- Understanding the impact of poor public health policy
- Interpreting complex data to make it clear and accessible for all
- Gain inspiration from our military heroes and community leaders who have been impacted and are speaking up
- Become an advocate for yourselves and your families as our rights are infringed
- Unify Americans who are fighting to preserve our foundational values and culture
- Build an integrated network of aligned thinkers to support the movement

Gateway2Freedom Conference

August 25-27 St. Louis

Gateway to Medical Freedom is the premier (medical) freedom conference of the summer in the Midwest.

Our goals of the event include:

- Understanding the impact of poor public health policy
- Interpreting complex data to make it clear and accessible for all
- Gain inspiration from our military heroes and community leaders who have been impacted and are speaking up
- Become an advocate for yourselves and your families as our rights are infringed
- Unify Americans who are fighting to preserve our foundational values and culture
- Build an integrated network of aligned thinkers to support the movement

EXCESS mortality-these graphs reflect a disturbing set of flags, that excess mortality is rising in Netherlands as corona virus deaths flattened; why? VACCINE maybe? what is the role of the vaccine?

Malone presents some good Netherland data we should look at; is the excess due to delayed treatments post lockdowns, now emerging? is the vaccine directly causing deaths?

Gateway2Freedom Conference

August 25-27 St. Louis

Gateway to Medical Freedom is the premier (medical) freedom conference of the summer in the Midwest.

Our goals of the event include:

- Understanding the impact of poor public health policy
- Interpreting complex data to make it clear and accessible for all
- Gain inspiration from our military heroes and community leaders who have been impacted and are speaking up
- Become an advocate for yourselves and your families as our rights are infringed
- Unify Americans who are fighting to preserve our foundational values and culture
- Build an integrated network of aligned thinkers to support the movement

What Is Man That Science Art Mindful of Him?

The people who orchestrated isolation in nursing homes in 2020, who enforced malnutrition on hundreds of millions, who condemned millions of girls to servitude, are not doing so with 'right' or 'wrong' in mind. They don't accept that such fixed concepts exist. If there is nothing beyond the physical, then their actions are rational and cannot be wrong.

There Was No Pandemic Mastermind

All one had to do was believe the illusion. Because of the absolute terror of the unknown and complete ignorance of the risks of severe disease and death, most people were more than willing to take comfort in CDC recommendations and subsequent government mandates without the slightest hint of skepticism or protest.

How To Tame a Bureaucracy? Get Rid of It

There needs to be a to-be-abolished list and any federal government institution with the word agency, department, or bureau needs to be on it. The last few years have shown us the power of these institutions and the devastation they can cause. The only sure way of preventing it from happening again is to put a hard stop on all the bureaucracies that caused our suffering. Society itself, which is smarter than bureaucracy, can manage the rest.

Gateway2Freedom Conference

August 25-27 St. Louis

Gateway to Medical Freedom is the premier (medical) freedom conference of the summer in the Midwest.

Our goals of the event include:

- Understanding the impact of poor public health policy
- Interpreting complex data to make it clear and accessible for all
- Gain inspiration from our military heroes and community leaders who have been impacted and are speaking up
- Become an advocate for yourselves and your families as our rights are infringed
- Unify Americans who are fighting to preserve our foundational values and culture
- Build an integrated network of aligned thinkers to support the movement

The CDC Failed, So Spin It Off and Make It More Powerful?

Don't be fooled by any appearance of contrition on the part of the CDC. They still have a legal appeal in process that would put a mask back on your face when traveling. The new agency to which its pandemic responsibilities will be transferred will have a 1,000-person staff to start, people paid the big bucks to sit around coming up with new ways to whip up disease panic and start another crackdown.

Mandatory Mis-Remembering on Natural Immunity

While the natural immunity versus vaccination debate has been controversial over the last year, what is not debatable is that midterm elections are coming this November. And with a majority of Americans unhappy with the President's pandemic policies, perhaps the CDC is relying on "midterm science" to guide their new appreciation for natural immunity?

Gateway2Freedom Conference
August 25-27 St. Louis
Gateway to Medical Freedom is the premier (medical) freedom conference of the summer in the Midwest.
Our goals of the event include:

- Understanding the impact of poor public health policy
- Interpreting complex data to make it clear and accessible for all
- Gain inspiration from our military heroes and community leaders who have been impacted and are speaking up
- Become an advocate for yourselves and your families as our rights are infringed
- Unify Americans who are fighting to preserve our foundational values and culture
- Build an integrated network of aligned thinkers to support the movement

A Deeper Dive Into the CDC Reversal

How many people on the planet have now been acculturated to top-down control, socialized to live in fear, accept whatever comes down from above, never to question an edict, and expect to live in a world of rolling man-made disasters? And was that the point after all, to breed low expectations for life on earth and relinquish the soul's desire for a full and free life?

Missouri and Louisiana Attorneys General Sue the Biden Administration Over Free Speech

The state attorneys general of Missouri and Louisiana have filed suit against the Biden administration. Among the plaintiffs are Brownstone Senior Scholars Martin Kulldorff, Jay Bhattacharya, and Aaron Kheriaty who have experienced this censorship first hand. The case is joined by the New Civil Liberties Alliance and filed in the US District Court for the Western District of Louisiana Monroe Division.

Jim>This story here is excellent - my posted comment sums up my take on it: *Love it! Awesome story! That 16yr old standing alone while 160 classmates get in line for the shot...wow...that is freaking amazing! Good job young man! And good job dad for the way you handled this so well with your family! And good job mom, even though you were in the industry and friends/family pressuring, you had open mind to hear the evidence and believe the truth of it. Thanks for sharing this encouraging story!*

Politifact Attempts To Rescue Dr. Birx

The real question here is, if Dr. Deborah Birx – a prominent member of Trump’s White House coronavirus task force – knew the vaccines didn’t stop infection then, how could the others NOT have known? And if they did, why did they lie about it for so long? Sure, we know the likely answer, but it’ll still be fun to watch them squirm on the stand as the investigations commence.

New Evidence: Fauci Imposed a Vaccine Delay that Cost Trump the Election

The key piece of information comes from a new book, *The Messenger*, published last week by Harvard Business Review Press. The author, Peter Loftus, is a reporter for the Wall Street Journal and they published his essay about the book in their Review section on Saturday. What’s astonishing is that Loftus does not even realize the enormity of the story he just stumbled upon.

The elites’ ability to flood our consciousness with fragmentary and undigested information has increased exponentially. Dr. Pierre Kory points out that when President Biden got COVID, that essentially offered up a public debunking of the narrative that “the vaccinated won’t get COVID.” Furthermore, in his [Substack post](#) about the Op-Ed, Dr. Kory says that “Vaccine-only prevention has failed. Paxlovid-only early treatment will too.”

-
Aside from the ever-mounting cases of rebound, Drs. Marik and Kory have been shouting from the rooftops about the dangers of ingesting Paxlovid. Said Dr. Kory in another [recent Op-Ed](#):

They Thought They Were Free

The men and women of Germany in the 1930s and 40s were not unlike Americans in the 2010s and 20s—or the people of any nation at any time throughout history. They are human, just as we are human. And as humans, we have a great tendency to harshly judge the evils of other societies but fail to recognize our own moral failures—failures that have been on full display the past two years during the covid panic.

Gateway2Freedom Conference

August 25-27 St. Louis

Gateway to Medical Freedom is the premier (medical) freedom conference of the summer in the Midwest.

Our goals of the event include:

- Understanding the impact of poor public health policy
- Interpreting complex data to make it clear and accessible for all
- Gain inspiration from our military heroes and community leaders who have been impacted and are speaking up
- Become an advocate for yourselves and your families as our rights are infringed
- Unify Americans who are fighting to preserve our foundational values and culture
- Build an integrated network of aligned thinkers to support the movement

Are We Free By Right or Not?

Fundamentally, human rights cannot be dependent on compliance with public health officials. Or politicians. Or the whims of philanthropists and their favorite corporations. These rights must be an intrinsic part of being human, irrespective of the circumstance, irrespective of age, gender, parentage, wealth, or health status. Or we are, indeed, just complex chemical constructs with no real intrinsic value. Society, and each individual, must decide.

The Culpability of the New York Times: Then and Now

The whole sorry episode speaks to a much larger and more entrenched problem: the symbiotic relationship between Big Media and the administrative state. It's the permanent bureaucracy that serves the journalists' primary and most credible source material. The higher the journalist or the bureaucrat rises in the profession, the fatter the rolodex grows on both ends. They maintain constant communication, as the FOIA'd emails about the pandemic have repeatedly shown.

By all means, let's talk about epistemic injustice

I'll start: mainstream gaslighting of people who are vaccine injured is the quintessential example of epistemic injustice.

<https://tobyrogers.substack.com/p/by-all-means-lets-talk-about-epistemic>

Jim>hate to put this concluding snippet, but it is so true...I and so many if us are living this...they think we're fools...it's maddening...

So BY ALL MEANS let's talk about epistemic injustice. We live in a society awash in epistemic injustice against the vaccine injured, the unvaccinated, and critical thinkers. The rich and powerful always try to silence those who threaten their standing. If scholars of epistemic injustice want to be taken seriously they must highlight these harms wherever they occur — even when committed by their own tribe. Stopping epistemic injustice starts with [listening](#) to the stories of the vaccine injured, [hearing](#) their cries, and [standing with](#) the oppressed against the oppressors in the pharmaceutical industry.

Global infection/case rates COVID July 16th 2022; shows us that pandemic is expanding & due not to the VIRUS, but due to the failed non-neutralizing vaccine & antibodies that enhance VAXXed infection

The Silent Killers

Chapter 2: Second Thoughts on the Germ Theory

By: Dr. Kevin Stillwagon

-snippet

“Did you ever wonder why the members of a family can eat the same food, drink the same water, sleep under the same roof, breathe the same air and be exposed to the same germs, yet only one family member becomes ill, and all the others remain healthy? The answer is obvious – that one family member had decreased defenses or resistance in his body. Decreased resistance due to a weakened or overreactive immune system is the primary cause of disease; germs (bacteria and viruses) are only secondary factors.”

How to lie with statistics and keep the grants rolling in: more Australian COVID vaccine data whitewashing

By: Dr. Ah Kahn Seyd, MD (ArkMedic)

-snippet:

The COVID death rate for the 2-3 dose vaccinated in Australia is more than 1.5x that of the unvaccinated in the UKHSA government report.

-another snippet:

Essentially that demonstrates - beyond any reasonable doubt that - for those 99.8% of the population that were never at serious risk from omicron - natural infection provides 10x more protection than the #safeandeffective (approved by Pfizer, Macartney and Hazzard) does.

Brown University's Silence on Post-Vaccine Myocarditis

In March, 2021, two months before enacting its mandatory, aggressive covid-19 vaccination campaign, a healthy 20-year-old male Brown University student was apparently hospitalized for covid-19 vaccine-induced myopericarditis. The University never disclosed this hospitalization, then, till now, ignoring the established ethics of risk/benefit-based informed consent.

The Senior Executive Service: Heart of the Medical Deep State

To break up these "public-private partnerships" which compromise the ability of HHS to perform essential oversight duties and truly protect the health of American Citizens from the rapacious practices and disgusting ethics of the medical-pharmaceutical complex (in which they behave as predators, and we have become the prey), we must sever the financial and organizational ties that bind the medical-pharmaceutical industrial complex to the HHS Administrative State, and which have been incrementally developed and deployed over many decades.

The Courage to Dissent...From the Left

The unprecedented public health response to the pandemic; lockdowns, the censorship by Big Tech of dissenting medical voices and treatment options along with conflicting views on masking, vaccine, school closures and social-distancing policies have all contributed to deep and potentially irrevocable distrust of public health and government.

We Lost Too Much Freedom, Polls Say

This poll may be the most promising news we've seen since Covid began. As lonely as it may sometimes seem being an anti-lockdown activist, these poll results go to show that it's not just a handful of us who feel as we do—it's actually billions. In India, especially, an overwhelming majority of respondents agreed that the government took away too much freedom during Covid, which is unsurprising when remembering scenes like these during lockdown.

The Unbekoming Express - Edition 10 - 15 minute read

<https://unbekoming.substack.com/p/1986-act-desmet-fibreglass-logs-and>

1. Documentary: 1986 Act

[Home - 1986: The Act \(7thchakrafilms.com\)](https://7thchakrafilms.com)

-snippet:

This documentary should be added to the list of [required viewing \(learning\)](#) on the subject of vaccines and the childhood schedule. I thought it was only about the law that came into effect in 1986, but it's actually detailed history of the before and after of that moment.

2. Fiberglass Logs

-snippet:

Weinstein makes the analogy and Malone runs with it.

Turns out it's not mRNA after all in these jabs. It's something else, it's synthetically modified so as NOT to break down, or at least with greater difficulty. Natural mRNA which is what we all (including these two Nobel candidate level scientists) thought was in the jabs, breaks down very easily, it's fragile, within 30 mins up to 2 hours. Instead lets call this new thing they have inserted into the global population SmRNA, and it doesn't breakdown, it's there at least 2 months after injection (like a fibreglass log in the woods) generating cytotoxic spike protein.

3. Book: The Psychology of Totalitarianism

-snippet:

I've just about finished this as an audiobook, and I think that what Desmet has written is something quite special. I even think it will go down as a classic.

4. Indian Online Pharmacy

-snippet:

In [case you missed it](#), this is a good source of Ivermectin if you decide that you want or need it.

5. Last paragraphs of Dissolving Illusions

-snippet:

The book has 808 references, not quite the 2,194 of The Real Anthony Fauci, but a mountain of factual evidence never the less. It takes an axe to the very foundation of mass vaccination logic, the idea that mass vaccination rid the world of disease.

Pfizer, Moderna Shots More Likely to Cause Serious Injury Than Reduce Risk of COVID-Related Hospitalization

A new analysis of Pfizer and Moderna COVID-19 vaccine trial data shows the risk of serious injury following the vaccine is greater than the reduction in COVID-19 hospitalizations, according to a study posted June 23 on Social Science Research Network.

More Flaws in the Vaccine Model Claiming 20 Million Lives Saved

It is possible that the jabs may have saved some lives, but the modeling study is likely grossly overestimating the same. Further, that (a) scientists have to resort to a modeling study with so many flaws, and that (b) news outlets have to resort to imbalanced coverage of the same without mention of financial conflicts of interest, does not speak too well of the possibility of a huge impact on lives saved. The scientific evidence to substantiate a jab as life-saving should always be a rigorous randomized control trial.

The Truth About Vaccine-Induced Myocarditis: Part 2

The latest devastating research and an exclusive interview with a vaccine-injured citizen.

<https://ravarora.substack.com/p/the-truth-about-vaccine-induced-myocarditis-c21>

-snippet from above article:

"Millions of young men have gotten double-vaccinated without the requisite medical information and acknowledgement of risks. Given the 1 in 2,000 myocarditis risk ratio in young males, 1 million administrations of the vaccine alone have likely resulted in around 500 cases of myocarditis. Indeed a small fraction, but when compared with the near-zero serious risk of Covid in this age group, it is a medical disaster."

Viruses that evolve rapidly are bad candidates for a vaccine. There is no vaccine for the common cold nor HIV because these viruses evolve too quickly for a vaccine to be effective. Viruses do not simply change how they kill from one year to the next. Something happened in C19-involved deaths after 2020 that changed how C19 purportedly kills people. Pneumonia and respiratory issues dominated 2020, the year of C19; but something insidious has doubled and tripled relative numbers of circulatory system deaths after 2020. The Massachusetts DPH cannot hide from this. Either there is massive fraud in coding of deaths or some intervention in 2021 and 2022 caused deaths or both are true at the same time.

Rational Nosocomephobia?

Are we doing more harm than good in the name of public "health"?

By Robert W Malone MD, MS

<https://rwmalonemd.substack.com/p/rational-nosocomephobia>

-snippet from this article:

"The CDC, under Freedom of Information Act Request (FOIA) [has now admitted](#) that even though they had promised to analyze the VAERS data before advising about these vaccines for children, they did not. The VAERS data were NOT taken into consideration before the authorization of these genetic agents for babies and young children. Frankly, this is shocking. So shocking, it is hard for me to even write about it."

We now know why the CDC hasn't found any safety signals in the VAERS system

They weren't looking! NOBODY should trust the CDC until the leadership is replaced with people who care about protecting the PUBLIC, not the drug companies.

Origins and Trajectories of the COVID Phenomenon

The philosophical foundation of the PANDA group, one of the leading international teams

By Robert W Malone MD, MS

<https://rwmalonemd.substack.com/p/origins-and-trajectories-of-the-covid?s=r>

-About this guest writer...

This author of this substack article is [PANDA](#) founder [Nick Hudson](#), who is being interviewed in the video clip appended above. This brief clip is one segment of a longer interview which [can be viewed here](#). Nick is both a personal friend and an [actuary](#) with broad international experience in finance, who has settled into a career as a private equity investor. The article has been edited by Robert Malone.

-good snippet from this article:

“Most vexing problems exist within domains of some complexity, and that complexity challenges us. It defies any kind of deductive analytical solution. We test explanations on the margins of that complexity. An explanation either succeeds or fails in the real world through the process of conjecture and criticism. In this way, the corpus of knowledge—the canon—consisting of these explanations requires conjecture and criticism to grow in this evolutionary way. And we, over time, replace bad explanations with better ones in an infinitely unbounded process.

So that's the epistemological grounding for how PANDA has approached the COVIDcrisis. I have spent some time on developing this background and explanation because it embeds a couple of key ideas. First of all, you see straight away that any attempt to kill the process of error correction whatsoever will terminate the knowledge growth. You need the process of criticism of explanations in order for knowledge to continue growing.”

Jim> Interesting to see articles like this hitting the mainstream media. But it is also infuriating to see how they mislead folks with misinformation and omissions of truth. I'm not a medical doctor, but from all I've been reading the past 2+ years, I can see that what this Yale physician says is not true. This article says: "Dr. Sheela Shenoj, an infectious disease doctor and assistant professor at Yale School of Medicine, told McClatchy News over the phone that "there's no biological reason that people who have had (the vaccine) and boosters are going to be at increased risk for COVID." I'm sorry but he's wrong. There's this thing called ADE (Antibody/Antigen Dependent Enhancement) that many MD's have been warning about concerning Covid vaccines, where the antibodies your body produced from the vaccine then help the real virus to enter the cells, thus increasing the chances of the person getting sick from the virus. That is a definite "biological reason" for increasing the chances of vaxxed getting infected. There's all kinds of info on this website concerning ADE if you are interested in reading more about it.

-Great comment by Kozy on above article!

Never forget that when Thalidomide was first marketed as a 'safe' drug to counter anxiety and morning sickness in pregnant mothers in the 1950s, it took two doctors (two!) who were initially ignored and vilified, to point out the causal effect of thousands of birth defects happening around the world. It took about seven years. That also means that thousands, if not millions of doctors either ignored or chose not to make the link between the drug and its effects. It seems we're at that point again. We have to be vigilant, persistent and support the truth-seekers - very grateful for all your work, Etana.

The Mass Betrayal of Trust

The world that the lockdowns and mandates, and all that is associated with them, unleashed is dark, corrupt, duplicitous, dishonest, dangerous, tribal, and pervaded with nihilism and a loss of moral clarity and a resulting criminality both public and private. How easy it turns out to be to shatter trust, to disable a functioning social order, to spread corruption from person to person, institution to institution, to the point that the center no longer holds!

<https://brownstone.org/articles/the-mass-betrayal-of-trust/>

China’s Culpability for Lockdowns Does Not Depend on the Lab Leak Theory

Part of the problem is that much of the evidence refuting the lab leak theory comes from scientists on the political left, who’ve so thoroughly debased themselves on this subject. It’s testament to the CCP’s dark sense of humor—riddled throughout the response to Covid—that they were able to convince the left it was

woke to support the even-more-ridiculous theory that Covid came from some poor Chinese shopkeepers in Wuhan's Huanan market selling pangolins.

Already in 2020, There Were Signs of Increased Non-Covid Mortality

Second-order effects on mortality were not measured in real time like SARS-COV2 cases. Why? What we measure matters. What we don't measure might actually just matter even more. Months and years later we are still accounting for how the Covid-19 response disrupted life and cost lives in many other ways we simply chose to ignore.

CDC Wants Its Covid Regime Made Permanent

What the CDC pushed on the country, even the world, was without precedent. The resulting disasters are everywhere present. At minimum we should expect the CDC to cease and desist, and certainly not entrench and codify. That the latter is taking place reveals what a long struggle lies ahead.

A Short History of the Testing Debacle

Federal health agencies have had more blunders than practically anyone expected during this pandemic. The least that Uncle Sam can do is get out of the way of private efforts to help Americans recognize the risks in their own lives.

Was It the Pandemic or the Response?

No doubt some remember “drop the bag at the doorstep,” “no knocking on the door,” “don’t ring the doorbell” lest the working-class germs of the delivery persons remain. It all raises a question about what people did to maintain their figures amid all the binge-watching, eating, and advertising of their doings on social media.

CHILDHOOD VACCINES...

I never questioned childhood vaccines in the past. I received vaccines as a kid, and we made sure our five kids received their vaccines. I question them now... The lies, corruption and censorship surrounding the Covid vaccine opened my eyes. Now I’m a new grandpa for the first time. My wife and daughter insisted that I watch the movie “Vaxxed 2”. OMG...what are we letting them do to our children?! If you’re a parent or grandparent, or ever will be, you must watch this movie. And pass it along to others you know who will

have kids. This movie is heartbreaking and it's Crimes against Humanity what medicine and government are doing.

URGENT: Death rates are soaring again in highly vaccinated European countries

All-cause mortality is spiking - right on schedule, three-plus months after booster mRNA shots - and mostly in the elderly, the most highly boosted group. It's getting hard to see this as coincidence.

Over a silly definition of “sanitation”, the CDC appears willing to gamble a pillar of our modern society’s constitutional law, a legal cornerstone of our executive agencies, and perhaps, should the CDC lose, its willingness to gamble will be precisely the reason why we can’t have that nice thing of Chevron deference.

Certainly, there must be something we can learn in preparation for the next virus ready to hold the world hostage. South Africa's infections/cases to date and deaths; 97% immunity in the population, so why would it get this 5th wave OMICRON? Has low vaccine rate, so do they need vaccine? Why deaths so low?

How the Pandemic Response Changed My Thinking

What we really need is a system that is safe for freedom and human rights that protects those ideals even when the madness of crowds – or the arrogance of intellectuals or the lust for power of the bureaucrats – wants to scrap them. And that means revisiting the very foundations of what kind of world in which we want to live. What we once believed was a settled matter has been completely upended. Figuring out how to recover and restore is the great challenge of our times.

Ethnocentrism and Political Intolerance: A Two Year Retrospective on the Pandemic Response

Across our vast, heterogenous human populations of the US, a policy or a public health message that works where you live may very well harm people who live somewhere else, who have different cultures, beliefs and values. As one size may never fit all, it becomes increasingly important for scientists helping a pluralistic world to avoid political monism at all costs, to deliberately create space for alternative ideas.

Vaccine passports and contact tracing are intimately tied to surveillance. More specifically, global surveillance. As the draft notes, the WHO will carry out "coordinated global surveillance of public health threats." This can only be achieved by member states, all 194 of them, expanding their surveillance systems and contributing to "the WHO's global systems for surveillance."

Jim>I'm going to keep this pediatrician's letter in my daily read feed for a while. This letter is a "must read" by all parents thinking about getting their children the covid vaccine. It's long, 119 pages, but it is the best report on covid-19 that I've seen.

An Open Letter to Parents and Pediatricians Regarding COVID Vaccination

By Robert M. Rennebohm, MD

https://mcmillanresearch.com/wp-content/uploads/2022/04/624efefdd6ba6eb21993283e_COVIDANALYSISOPENLETTER.pdf

-Jim> A couple concluding points from his letter to consider:

-As a pediatrician, a father, and a grandfather, I must do my part to protect the integrity of the immune ecosystem in children and to protect Humanity from the adverse effects of an ill-conceived mass vaccination campaign. Hence, this Open Letter.

-For the sake of our children, grandchildren, and all of humanity, we have an individual and collective social responsibility to call for an immediate and complete halt to the current COVID vaccination campaign, on a scientific basis alone, until an appropriate COVID Commission is convened to thoroughly and accurately evaluate the COVID situation. In the meantime, current scientific evidence strongly suggests that to participate in the continuation of the COVID vaccination campaign—to promote it, to remain silent about it, or to personally receive further COVID vaccination—is to contribute to the harm of children and humanity, as well as harm to oneself.

What Does the Pandemic Treaty Do?

The Pandemic Treaty is everything the WHO has already been doing—but more of it. So what's actually at stake if the treaty is passed? Everything. The real significance of the Pandemic Treaty is that its passage is a ratification and approval of everything the world has experienced over the past two years during COVID-19.

<https://brownstone.org/articles/what-does-the-pandemic-treaty-do/>

The WHO Changes Guidelines to Favor Lockdowns

The report says this recommendation will be incorporated into the WHO's "normative work," meaning it will be part of official WHO guidance to states in responding to a pandemic. Worse still, it says it's already being implemented – it doesn't need a treaty or the agreement of member states to do this, it's already happening.

An Open Letter to Parents and Pediatricians Regarding COVID Vaccination

By Robert M. Rennebohm, MD

https://mcmillanresearch.com/wp-content/uploads/2022/04/624efefdd6ba6eb21993283e_COVIDANALYSISOPENLETTER.pdf

-Jim> A couple concluding points from his letter to consider:

-As a pediatrician, a father, and a grandfather, I must do my part to protect the integrity of the immune ecosystem in children and to protect Humanity from the adverse effects of an ill-conceived mass vaccination campaign. Hence, this Open Letter.

-For the sake of our children, grandchildren, and all of humanity, we have an individual and collective social responsibility to call for an immediate and complete halt to the current COVID vaccination campaign, on a scientific basis alone, until an appropriate COVID Commission is convened to thoroughly and accurately evaluate the COVID situation. In the meantime, current scientific evidence strongly suggests that to participate in the continuation of the COVID vaccination campaign—to promote it, to remain silent about it, or to personally receive further COVID vaccination—is to contribute to the harm of children and humanity, as well as harm to oneself.

An Open Letter to Parents and Pediatricians Regarding COVID Vaccination

By Robert M. Rennebohm, MD

https://mcmillanresearch.com/wp-content/uploads/2022/04/624efefdd6ba6eb21993283e_COVIDANALYSISOPENLETTER.pdf

-Jim> A couple concluding points from his letter to consider:

-As a pediatrician, a father, and a grandfather, I must do my part to protect the integrity of the immune ecosystem in children and to protect Humanity from the adverse effects of an ill-conceived mass vaccination campaign. Hence, this Open Letter.

-For the sake of our children, grandchildren, and all of humanity, we have an individual and collective social responsibility to call for an immediate and complete halt to the current COVID vaccination campaign, on a scientific basis alone, until an appropriate COVID Commission is convened to thoroughly and accurately evaluate the COVID situation. In the meantime, current scientific evidence strongly suggests that to

participate in the continuation of the COVID vaccination campaign—to promote it, to remain silent about it, or to personally receive further COVID vaccination—is to contribute to the harm of children and humanity, as well as harm to oneself.

FEDERATION OF STATE MEDICAL BOARDS INTRODUCES MISINFORMATION POLICY

The Political Hierarchy of Infection

We preach non-discrimination, equality, and democracy, but when confronted with what seemed to be a potentially mortal threat to our health and lives, we reverted back to pre-modern forms, almost overnight creating a new caste system, shoving the lessers among us in front of the virus to keep the elites pure and clean.

Why the Silence on Lockdowns?

They managed to destroy countless businesses, upend human rights, kill millions, cast hundreds of millions deeper into poverty, strain the mental health of billions, and transfer trillions of dollars in wealth from the world's poorest to the very richest—all while failing to slow the spread of a virus that was subsequently confirmed to have an infection fatality rate under 0.2%.

An Open Letter to Parents and Pediatricians Regarding COVID Vaccination

By Robert M. Rennebohm, MD

https://mcmillanresearch.com/wp-content/uploads/2022/04/624efefdd6ba6eb21993283e_COVIDANALYSISOPENLETTER.pdf

-Jim> A couple concluding points from his letter to consider:

-As a pediatrician, a father, and a grandfather, I must do my part to protect the integrity of the immune ecosystem in children and to protect Humanity from the adverse effects of an ill-conceived mass vaccination campaign. Hence, this Open Letter.

-For the sake of our children, grandchildren, and all of humanity, we have an individual and collective social responsibility to call for an immediate and complete halt to the current COVID vaccination campaign, on a scientific basis alone, until an appropriate COVID Commission is convened to thoroughly and accurately evaluate the COVID situation. In the meantime, current scientific evidence strongly suggests that to participate in the continuation of the COVID vaccination campaign—to promote it, to remain silent about it, or to personally receive further COVID vaccination—is to contribute to the harm of children and humanity, as well as harm to oneself.

Why Won't They Admit Failure?

Looking back, there is nothing terribly surprising about any of this. It's a consequence of safety culture, arrogant elites, and a belief that powerful, rich, and intelligent people can manage the world better than the rest of us. We've been here many times in history, and it has always foreshadowed a long period of suffering.

The Point of Masks: To Cause Alarm

The reason American kids were forced to cover their faces for six hours every day was “that it causes alarm in the other person and so you stay away from each other... But did the mask really help them? Did the mask keep the virus out? Almost certainly not.” Garrett always knew, but continues to support muzzling them anyway.

Exclusive: Pilots Injured by COVID Vaccines Speak Out: 'I Will Probably Never Fly Again'

In interviews with The Defender, pilots injured by COVID-19 vaccines said despite a "culture of fear and intimidation" they are compelled to speak out against vaccine mandates that rob pilots of their careers — and in some cases their lives.

Jim>I'm going to keep this pediatrician's letter in my daily read feed for a while. This letter is a "must read" by all parents thinking about getting their children the covid vaccine. It's long, 119 pages, but it is the best report on covid-19 that I've seen.

An Open Letter to Parents and Pediatricians Regarding COVID Vaccination

By Robert M. Rennebohm, MD

https://mcmillanresearch.com/wp-content/uploads/2022/04/624efefdd6ba6eb21993283e_COVIDANALYSISOPENLETTER.pdf

-Jim> *A couple concluding points from his letter to consider:*

-As a pediatrician, a father, and a grandfather, I must do my part to protect the integrity of the immune ecosystem in children and to protect Humanity from the adverse effects of an ill-conceived mass vaccination campaign. Hence, this Open Letter.

-For the sake of our children, grandchildren, and all of humanity, we have an individual and collective social responsibility to call for an immediate and complete halt to the current COVID vaccination campaign, on a scientific basis alone, until an appropriate COVID Commission is convened to thoroughly and accurately evaluate the COVID situation. In the meantime, current scientific evidence strongly suggests that to participate in the continuation of the COVID vaccination campaign—to promote it, to remain silent about it, or to personally receive further COVID vaccination—is to contribute to the harm of children and humanity, as well as harm to oneself.

Choice Quotes from Bill Gates's New Book

I'm sorry to report that the entire book is a study in mysophobia, more worthy of study by a student of abnormal psychology than a public health official, much less a scientist. That no one has ever pointed this out to him is a disgrace. It's the trouble with being so rich that you become uncriticizable.

Jim>I'm going to keep this pediatrician's letter in my daily read feed for a while. This letter is a "must read" by all parents thinking about getting their children the covid vaccine. It's long, 119 pages, but it is the best report on covid-19 that I've seen.

An Open Letter to Parents and Pediatricians Regarding COVID Vaccination

By Robert M. Rennebohm, MD

https://mcmillanresearch.com/wp-content/uploads/2022/04/624efefdd6ba6eb21993283e_COVIDANALYSISOPENLETTER.pdf

-Jim> A couple concluding points from his letter to consider:

-As a pediatrician, a father, and a grandfather, I must do my part to protect the integrity of the immune ecosystem in children and to protect Humanity from the adverse effects of an ill-conceived mass vaccination campaign. Hence, this Open Letter.

-For the sake of our children, grandchildren, and all of humanity, we have an individual and collective social responsibility to call for an immediate and complete halt to the current COVID vaccination campaign, on a scientific basis alone, until an appropriate COVID Commission is convened to thoroughly and accurately evaluate the COVID situation. In the meantime, current scientific evidence strongly suggests that to participate in the continuation of the COVID vaccination campaign—to promote it, to remain silent about it, or to personally receive further COVID vaccination—is to contribute to the harm of children and humanity, as well as harm to oneself.

The Psychology of Mimetic Contagion

Participation in the ritual, which lacks pragmatic advantages and requires sacrifice, demonstrates that the collective is higher than the individual. For this portion of the population, it doesn't matter whether the measures are absurd. Think of walking into a restaurant with a mask on, and removing it as soon as one sits down, for example.

COVID Vaccines Provide Meager Benefit to Young Kids, CDC Report Shows — Media Get It Wrong Again

Media promoted this week's Centers for Disease Control and Prevention report as justification to compel parents to vaccinate their children, but the report actually showed COVID vaccines have very little benefit — and a risk that remains unknown and unacknowledged by the authors.

No COVID-19 Is Not a Snake Venom – Only Snake Oil Salesmen Would Tell You That

By: Dr. Lawrence Sellin

<https://www.thegatewaypundit.com/2022/04/exclusive-no-covid-19-not-snake-venom-snake-oil-salesmen-tell/>

-Jim>. Good comment here on this article:

Commenter: Virtuoso

I'm pretty sure he didn't say it WAS snake venom. I believe he said the spike protein shares tremendous similarities to snake venom peptides, He implied that the virus is a bioweapon that causes the body to produce (through the spike protein) what amounts to snake venom. That's not the same thing as saying it IS snake venom. The fact remains that snake venom peptides really are similar to coronaviruses. That's may sound crazy, but all of this would have sounded crazy just a few years ago.

The real problem here is that we can't talk about any of this stuff without being censored. What if Dr. Ardis is on to something ? What if the virus is attacking organs in the same way that snake venom peptides attack organs? Many of the symptoms are the same. The protocol of using zinc, quercetin, vitamin c, vitamin d, and vitamin k all help with COVID19, but they also, coincidentally, work well for pit viper venom. Of course, that doesn't mean that the snake venom similarities from what amounts to a bioweapon is actually anything of real substance. The similarities could just be a coincidence. After all, just because there are similar symptoms doesn't mean they have identical causes. The body fights off pathogens and what not in a similar way I suppose. Still, insulting the messenger is not a valid argument. Claiming that an argument is ridiculous without undermining specific premises amounts to fallacious reasoning.

Is the spike protein a bioweapon that mimics snake venom? Probably not, but thanks to Big Tech and the fact checkers, we'll never get to benefit from conversations over the matter, because they want to control what we believe and how we think. It's un-American, and intellectually honest people know it.

Why So Many Middle-Aged Deaths in 2021?

Some thought April 2020 deaths were too high and justified putting our lives on hold, but January 2021 numbers were worse—the percentage death rate in 2021 is the same as it was in 2020. Why the increase in January 2021 deaths? Continued upward trend in deaths due to the increase and aging of the US population? Deaths of despair? Increased deaths due to untreated conditions in 2020? Deaths due to COVID or one of its variants? Vaccine deaths?

More Evidence from the UK that Masks Don't Work

There will clearly be no end to the push for a return to COVID restrictions among the medical and public health establishments. No matter how many surges arise with strict mandates in place, the pervasive groupthink on masks has infiltrated every facet of the elite decision making process

The Unmasking of America

What lockdowns and mandates have done to society is a painful truth, and one that we will be dealing with for many years. As much as we all just want it to go away, and as much as we all have great cause to celebrate this day, as much as the real of the mask mandate represents a symbolic end, no one should lose sight of the deeper problem: all of this happened to us, and not only to us but to billions of people the world over.

1. Intellectual laziness or lack of curiosity.
2. Naivete and disbelief that there could be such evil.

Those two threads capture most of what you are expressing above.

On #1 I can tell you over the years, it is rare indeed to interact with a practicing medical professional who reads the original medical literature. If I share an abstract or two on a topic of relevance to my health taken straight from PubMed it is most often pushed away with some exasperation. (PubMed is your search engine of the Library of Congress, taxpayer paid online service to find and print out peer reviewed research

and book chapters). Chatting most recently with a longtime doctor of mine, she revealed her go to authority was Medscape (a news service with clear industry funding). She asked me about their latest triumphant claim that IVM doesn't work for C19 based on the latest flawed study, designed to fail. I pleaded with her to go to original literature and to consider the totality of the evidence, look at meta analyses and forest plots etc. This is not a doctor whose specialty it is to treat C19 so she accepted what Medscape was telling her. I had to wonder, based on her reactions if it was her main source of information for her own specialty. So all those fabulous C19 frontline docs being attacked are exactly the rare ones taking the time to read and digest all the tedious literature. It is a lot of work, and takes considerable skill.

On #2, who of us isn't guilty of being naive and idealistic? I still can't wrap my mind around what the emerging reality that the vast majority of people we trusted--politicians, heads of government agencies, mainstream journalists, leaders of big industries are all on the take. Lying, stealing, and spreading fear and hate.

COVID Vaccines Aren't Working — And No Amount of Boosting Will Change That

We've gone from "two mRNA jabs will ensure you won't carry the virus or get sick or die of COVID" to "you need a booster every four months and you can still contract, transmit, get sick and die of COVID." At this rate, we're looking at three injections per year, and the fully-jabbed and boosted are still getting sick with COVID.

Yet Another Paper Fails to Find that Masks Do Anything

A natural experiment in Catalonia is the latest piece of evidence that masking is a worthless intervention.

Not methodologically optimal but good enough shows masks are useless; kids < 5 to kids > 6 in Catalonia, Spain A Quasi-Experimental Study Nested in a Population-Based Cohort

Bottom line again, masks are useless for COVID; mask mandates in schools were not associated with lower SARS-CoV-2 incidence or transmission, suggesting that this intervention was not effective.

What Happened on the Junket To China in February 2020?

There are so many questions and far too few answers. This one junket is just the beginning but it is a massively important one. We know now that the idea that China managed the virus well is a complete myth (it did not “demonstrate that the infection can be controlled”). The countries that locked down less or not at all had better outcomes in every area: health, economics, culture, and education.

We Need Truth and Justice

The free world is stuck tallying the costs of its catastrophic foray into totalitarianism. Most of these costs were predicted well before the policies were ever implemented. Hundreds of millions have gone hungry. An entire generation of children has been abused and traumatized. Young people were robbed of some of their brightest years. Small businesses and those who depended on them lost their livelihoods. Trillions of dollars were transferred from the world’s poorest to its very richest.

The China Model Unravels in Shanghai

Lockdowns are nowhere a solution to pathogenic spread, contrary to the assurances of the WHO or celebrity scientists in the UK or the US. When governments of the world tried to prove their competence by declaring war on cell biology, they finally met their match. To impose a centrally dictated objective, and a unidimensional one to boot, on complex societies comprised of billions of individuals with extremely diverse preferences and capabilities is to wage war on human nature, and humanity. WATCH: New Variant XE Variant

There's a new SARS-CoV-2 variant circulating called XE and it will likely become dominant within the not so distant future. So in this video I'll explain everything you need to know about it, and we'll explore some charts, data points, and images so you can understand all pertinent information. Also, I wanted to get proper information about this variant on record before the mainstream media twists it.

This Is Not Normal and No One Should Accept It

Our ruling class saw in Covid an opportunity to radically revolutionize society: recall how the phrase "the new normal" emerged almost immediately in the first weeks of the pandemic. In the first month Anthony Fauci made the absurd suggestion that perhaps never again would we go back to shaking hands. Never again?

Jim> Good article here but based on very small sample size (13). Says that the vax makes your own cells produce the spikes, then your T cells attack those same cells that produced the foreign spikes. I.e., your immune system is killing your own "traitor" cells that were tricked into creating the spikes, and this is causing the multitudes of adverse events. Maybe... But based on other reports I still believe those billions of spikes are causing trouble too.

Immunity offered by the vaccine is not long-lasting and the protection rapidly diminishes each month following the first 2 months after the second dose. With no randomized controlled trials evaluating the efficacy of the boosters on relevant clinical outcomes, and no data on safety given that the booster studies released did not contain a control group. A practitioner of science cannot be confident the potential rare benefit of hospital reduction in the younger healthy population outweighs repetitive dosing of a vaccine with limited safety data.

Lockdowns Had a Devastating Impact on Religion

Although individuals may be faring better, the profound damage to religious institutions is also quite remarkable. Charitable giving at many places of worship dropped precipitously during the pandemic. Many churches took government PPE funds to help weather the financial storm, but those funds only lasted for so long.

When is mRNA not really mRNA?

What is pseudouridine, why is it being injected into you, and why should you care.

By Robert W Malone MD, MS

Jim>This is a good article, read the whole thing, but here's a snippet from the conclusion:

"In conclusion, based on these data it is my opinion that the random and uncontrolled insertion of pseudouridine into the manufactured "mRNA"-like molecules administered to so many of us creates a population of polymers which may resemble natural mRNA, but which have a variety of properties which distinguish them in a variety of aspects which are clinically relevant. These characteristics and activities may account for many of the unusual effects, unusual stability, and striking adverse events associated with this new class of vaccines. These molecules are not natural mRNA, and they do not behave like natural mRNA.

The question that most troubles and perplexes me at this point is why the biological consequences of these modifications and associated clinical adverse effects were not thoroughly investigated before widespread administration of random pseudouridine-incorporating "mRNA"-like molecules to a global population."

Biden Seeks \$22.5 Billion for 'Boosters for All,' as Some Lawmakers Push Back

White House officials Monday said Congress must allocate another \$22.5 billion in COVID pandemic relief to avoid imminent cuts to treatment and vaccine availability, but some key Republicans said they want a fuller accounting of the trillions of dollars the administration has already spent on the coronavirus response.

How Public Opinion Ended Covid, and Started the Next Thing

These results point to one conclusion: between one-half and two-thirds of the public believe that the pandemic response was an enormous flop, and that their own liberties are far less secure now than they were before. Further, none of it worked to achieve that goal. That is a devastating indictment on the biggest expansion of government power and control in our lifetimes, one that happened not only in the US but almost everywhere in the world.

Freedom Is Our Birthright, Not Dependent On My Medical Status

On occasion the majority may need to swallow a risk for a time. Sometimes respecting the freedom of others will seem to cost us, but codifying human rights, and insisting on process, legalism, and law gives wisdom time to overcome fear. It is the insurance that keeps the members of a free society free.

Should I Vaccinate My Child Against Covid?

The Covid vaccine has been widely used for children without solid information about its efficacy on hospitalizations and deaths, and without the ability to conduct a proper benefit-risk evaluation. 6 facts about CDC denial that deaths linked to vaccines

1. The CDC did not exclude COVID vaccines as the cause of death in any of the 4,471 deaths reported to VAERS
2. The CDC did not actively track vaccine recipients to catch all deaths and other side effects
3. The CDC found that deaths following COVID vaccines were “concentrated” in the first few days after vaccination
4. The CDC downplayed death and injury rates
5. The large number of deaths and serious adverse events were small only in comparison to the even greater number of mild adverse events

Dr. Zelenko – The [DS] Did Not Reach Their Goal, There Is Hope For Those Who Received The Death Jab

Today's Guest: Dr. Zelenko

Dr. Zelenko Board Certified Family Physician with over 20 years experience. Dr. Zelenko was nominated for the Presidential Medal of Freedom and the Nobel Prize , Dr. Zelenko's team was one of the first in the country to successfully treat thousands of Covid-19 patients in the prehospital setting. Dr. Zelenko developed his now famous "Zelenko Protocol," which has saved countless lives worldwide. Dr. Zelenko recommended that President Trump take hydroxychloroquine. Dr. Zelenko begins the conversation explaining that the death jab will have medical problems because the death jab was not a vaccine, it was to reduce the population and the [DS]/Big Pharma fell short of their goal. But there is hope, those who received the death jab have the ability to shield or maybe even reverse what was given to them.

Why it Is Ethical To Resist the Biosecurity Surveillance State

The hour is later than we think; twilight is near. Continued compliance with manifestly unjust and often absurd mandates will not return us to a normal functioning society. Every good-faith or selfless act of compliance on the part of citizens has only resulted in more illogical pandemic “countermeasures” that further erode our civil liberties, harm our overall health, and undermine human flourishing.

Autopsies Show: Vaccinating Teens for COVID Is Literally ‘Heartbreaking’

Autopsies of two teenage boys who died days after receiving Pfizer’s COVID vaccine prove the vaccine caused their deaths. As of 6 February 2022, based on publicly available official UK and US data, all age groups under 50 years old are at greater risk of fatality after receiving a COVID-19 inoculation than an unvaccinated person is at risk of a COVID-19 death. All age groups under 80 years old have virtually no benefit from receiving a COVID-19 inoculation, and the younger ages incur significant risk.

Ivermectin Fails

https://alexberenson.substack.com/p/ivermectin-fails/comments?utm_source=url

-Note from Jim: I'm going to beg to differ with Alex on this story. I read through the study (see study link below). This is one negative Ivermectin study out of Malaysia versus how many studies from other countries. See: <https://c19ivermectin.com/> This study consisted of a lower dose of Ivermectin 0.4mg//Kg than the high end recommended .6/Kg in latest protocols, and no mention of combining it with zinc (which is important as ivermectin helps get zinc into the cell to stop replication of the virus), and also no mention of vit d or c. It also had a mean age of 62.5 of hospitalized patients up to 7 days after symptoms, so pretty high age and good chance of late start on Ivermectin. I believe this info needs to be considered together with many other positive studies before dissing Ivermectin.

-AND ANOTHER ANTI-IVERMECTIN ARTICLE FROM ALEX A LITTLE EARLIER...

To the ivermectin fanatics

https://alexberenson.substack.com/p/to-the-ivermectin-fanatics/comments?utm_source=url

-great comment on this article:

Alex is distorting the truth. BIG TIME.

This study shows a big advantage for ventilation and death. So he focuses on 'severe disease'.

More of the IVM group progressed to this, but on ventilation (60% in favor of IVM) and death (70% in favor of IVM) they fared better. Looking at these numbers you'd absolutely choose to be in the IVM group instead of the control group.

Secondly, patients were enrolled within 7 days of symptom onset, whereas IVM should be taken as soon as symptoms appear or even better, as soon as the test is positive.

It is ridiculous to measure progress from 'mild to moderate' and then scream victory on the failure of IVM for 'severe disease' when patients can go from moderate to severe disease before they have even digested their first IVM dose.

The whopper is that in every single protocol, IVM gets prescribed with zinc, as it is a potent zinc-ionophore. This is what it is known for. They somehow, through sheer coincidence, ignored that aspect and left zinc out of their 'unbiased' study. Luckily, it also has other mechanisms of action. They kicked in to still save lives.

Lives saved, Alex fails.

“Hallucinations, Nightmares, Despair, Longing for Human Contact” ~ Letter to Editor

I was not prepared for the absolute horror of being alone and no longer trusting that doctors actually wanted me to live. As I became increasingly lethargic and disoriented, I kept trying to be my own advocate and begging for the right to try medicine and vitamins that I had researched and knew would help me.

What the Truckers Want

I’ve spoken to 100 of the protestors gathered in the Canadian capital. What’s happening is far bigger than the vaccine mandates.

<https://bariweiss.substack.com/p/what-the-truckers-want>

Quote from above article that I can relate to:

“Theo, 24, felt the same way. He wasn’t a trucker—he used to work at a major accounting firm and now works another big company—but he was angry, like the truckers were. “They treated me like a second-class citizen,” he said, referring to his old firm. He explained that he’d refused to get vaccinated. He’d been vaccinated for other things. But he had a hereditary heart condition that, he said, made the Covid vaccine inadvisable—but he couldn’t get a medical exemption. At work, they made him mask up constantly. He felt like he was being publicly shamed. So, he quit.”

The Freedumb Fallacy

Freedom matters—even in a pandemic. Without freedom, elderly people may spend their remaining time on earth isolated from their loved ones, and we know that social isolation kills. Without freedom, people may lose not only their livelihoods but the momentum and opportunity to build careers as flight attendants, orchestra musicians, chefs, or scientists working on viruses. Without freedom, children may lose important and irretrievable experiences and milestones. Without freedom, life becomes a shadow of itself.

Spike Protein Detox Guide

About this guide

This is an evolving guide with emerging information on how to clear viral and vaccine-induced spike proteins from the body. The lists of herbal and other medicines and supplements have been compiled in a collaboration between international doctors, scientists, and holistic medical practitioners.

JAMA STUDY:

Myocarditis Cases Reported After mRNA-Based COVID-19 Vaccination in the US From December 2020 to August 2021

Findings: In this descriptive study of 1626 cases of myocarditis in a national passive reporting system, the crude reporting rates within 7 days after vaccination exceeded the expected rates across multiple age and sex strata. The rates of myocarditis cases were highest after the second vaccination dose in adolescent males aged 12 to 15 years (70.7 per million doses of the BNT162b2 vaccine), in adolescent males aged 16 to 17 years (105.9 per million doses of the BNT162b2 vaccine), and in young men aged 18 to 24 years (52.4 and 56.3 per million doses of the BNT162b2 vaccine and the mRNA-1273 vaccine, respectively).

Dr. Bhakdi discusses Burkhardt's work in this video:

<https://www.bitchute.com/video/fHIT55iM4Zv9/>. He says the t-lymphocytes attack the organs because the organs are expressing the spike proteins, and that is what the t-lymphocytes were trained to attack. Bhakdi says that it gets worse with increasing number of vaccinations, though 4 of the people had only had 1 injection. He says the blood vessels become leaky due to the first vaccine, and then with the second vaccination the mRNA leaks through the leaky blood vessels into the organs.

-

Additionally, the following may be of interest:

1. <https://www.medrxiv.org/content/10.1101/2021.12.23.21268276v1> -- showing the increased myocarditis risk with 2nd vs. 1st jab of Pfizer or Moderna. Earlier paper:

<https://www.nature.com/articles/s41591-021-01630-0?fr=operanews>. They reported "there was an increase in the risk of myocarditis within a week of receiving the first dose of both adenovirus and mRNA vaccines, and a higher increased risk after the second dose of both mRNA vaccines." They suggested that "vaccine mediated expression of SARS-CoV-2 surface spike protein on the surface of cardiomyocytes could potentially trigger an immunologic response resulting in organ-specific cell death[19,20]."

-

Further speculation on autoantibody generation, and an argument against a more generalized immunological reaction vs. one limited to the heart, is given here:

Real Covid numbers from Australia's largest state: 76% of deaths since mid January are in the vaccinated. Deaths in the boosted are soaring

<https://alexberenson.substack.com/p/real-covid-numbers-from-australias/comments>

UK data: 78% of deaths (28 d) reported in 4th weekly report PHE are in vaccinated; NOT the unvaccinated as Biden & the media & the CDC and NIH wants you to believe...I refer to 28 & 60 day mortality

it is not only massive escalations in infection in vaccinated but also vaccinated are getting sicker, hospitalized, & dying alarmingly...cant say many elderly died unvaxxed, they are too frail for vax

<https://palexander.substack.com/p/uk-data-78-of-deaths-28-d-reported>

Risch asked a good question today and I am extending it here; the FDA played a misdirection fraud game on the public with Pfizer and Comirnaty and now same with spikevax and moderna...why??

The FDA is a corrupted agency working for PHARMA and there is a reason for this bait and switch; there is no reason for the EUA to remain in place unless the Moderna Vaccine and Spikevax are different

<https://palexander.substack.com/p/risch-asked-a-good-question-today>

It is not in nations with highest vaccine' rate, but you will see massive infection in nations with 'more aggressive' vaccinations; key is 'training of the innate Abs'; less outcompete by Vaccinal Abs

those nations with slower vaccine roll out will allow the innate immunity to be trained due to repeated exposure of the unvaccinated; we do not replace innate and acquired Abs with vaccinal Abs

<https://palexander.substack.com/p/it-is-not-in-nations-with-highest>

Denmark is 90% (70% boosted) vaccinated yet sees among highest infections, with death curve to follow (a numbers game even with mild OMICRON), but its over for them; ENOUGH!) THEY ARE DONE with COVID!

New Zealand, Austria and illogical, irrational, nonsensical nation governments must take note from Denmark; you are harming your nation by lockdowns and restrictions; denies herd immunity

<https://palexander.substack.com/p/denmark-is-90-70-boosted-vaccinated>

'An analysis of each of these three groups support the conclusion that lockdowns have little to no effect on COVID-19 mortality.'...maybe we should have clued these folk into my work in AIER 1 yr ago

More specifically, stringency index studies find that lockdowns in Europe and the United States only reduced COVID-19 mortality by 0.2% on average; read my AIER report and all reports

6 things you need this winter season for COVID as well as for other respiratory virus; also LONG-HAUL Covid treatment protocol to deal with symptoms post infection etc.

Remember, POVIDONE-IODINE/betadine (brown liquid used in hospitals to clean wounds), nasal/oral wash, the virus hangs out in the nose a while, need to wash it out, half teaspoon in 1.5 ounces water

ENT doctors use it topically, so 1.5 ounces of water and spray it up the nose, swish it and spit out, twice a day? kills virus dead; doctors use in acute treatment each 4 hours; hydrogen peroxide also

To all those who continue to attribute abrogation of SARS-CoV-2 infection to pre-existing cross-reactive T cells rather than to innate immunity. The devil is in the detail of peer-reviewed publications.

By: Geert Vanden Bossche

(DVM from the University of Ghent, Belgium, PhD degree in Virology from the University of Hohenheim, Germany.)

- Why did the case rate in young unvaccinated age groups substantially decrease with increasing age while exactly the opposite effect was observed within the same age groups that were vaccinated, thereby resulting in a spectacular age-mediated decrease in vaccine efficacy (VE) in these younger age groups?
- Why are case rates in the unvaccinated older age groups much lower than in the corresponding vaccinated age groups, thereby resulting in a strongly negative VE?
- How can one explain that – in vaccinated groups aged 40-49 and above – the case rate diminishes with age whereas exactly the opposite occurs in the younger age groups?

How to end the pandemic? Using our natural 'INNATE immunity'; 'natural immunity' is both natural 'innate' immunity and natural 'acquired/adaptive' immunity; comprises both, yet distinct compartments

The KEY, the critical one is natural INNATE immunity, that is only complemented by naturally acquired immunity when the virus breaks through the 1st line of immune defense (innate)

I warn again, we must not vaccinate our children or young persons with these COVID vaccines; it was not studied as to ADE etc.; we also run the risk of suppressing/eroding their innate immunity

their innate immunity protects them against a broad range of pathogen, including coronaviruses & other respiratory pathogen; innate gives a type of herd immunity as it dilutes infectious CoV pressure

Risk of myocarditis following sequential COVID-19 vaccinations by age and sex

<https://www.medrxiv.org/content/10.1101/2021.12.23.21268276v1>

- For younger males receiving a second dose of mRNA-1273 vaccine, the risk of myocarditis was higher following vaccination than infection
- In summary, the risk of hospital admission or death from myocarditis is greater following COVID-19 infection than following vaccination and remains modest following sequential doses of mRNA vaccine including a third booster dose of BNT162b in the overall population.
- However, the risk of myocarditis following vaccination is consistently higher in younger males, particularly following a second dose of RNA mRNA-1273 vaccine.

New Research Shows Why the COVID19 “Vaccines” are Killing Professional Athletes

-snippet from report:

The study was from the [Bristol Medical School](#) in the UK and published in [Clinical Science](#). In brief, the paper showed that the spike protein of the SARS-CoV-2 can disrupt cardiac pericyte functions independent of a COVID19 infection.

The research found that spike proteins by eliciting pro-inflammatory cytokines such as tumor necrosis [factor-alpha](#) (TNF- α), [interleukin-1 beta](#), [IL-1 \$\beta\$](#) , [interleukin-6 IL-6](#), and [monocyte chemoattractant protein-1 MCP1](#). The same cytokines are increased in patients with severe COVID-19 that have cytokine storms. The cytokines then cause damage to the heart muscles and form blood clots.

The spike proteins also stimulate ERK1 and ERK2 and impair the “teamwork” of the pericytes and endothelial cells. The result is the death of endothelial cells. Once it dies, the cardiac blood vessels can not dilate to meet the demands of a rapidly beating heart.

I'm going to continue putting info out on these amazing December interviews of two top national MD's that oppose the medical establishment narrative. Here, I've got the transcripts of Dr Malone's and Dr McCullough's Joe Rogan interviews. These are a great reference. I found McCullough's on this same site yesterday (repeating it here today) and they had Malone's today.

'The BNT162b2 mRNA vaccine against SARS-CoV-2 reprograms both adaptive and innate immune responses'

-Snippet from beginning of this report:

This paper is so important and it provides evidence to support what many prominent immunologists and vaccinologists have been saying for a long time, including myself. These COVID-19 mRNA injectable products are causing, yes, causing, immune system dysregulation - and not just in the context of the adaptive system, but in the context of the innate system. Not only that, but these findings provide very good reasons as to why we are seeing resurgences of latent viral infections and other adverse events reported in VAERS (and other adverse event reporting systems)

By [Victor Davis Hanson](#)

About Victor Davis Hanson

Victor Davis Hanson is a distinguished fellow of the Center for American Greatness and the Martin and Illie Anderson Senior Fellow at Stanford University's Hoover Institution. He is an American military historian, columnist, a former classics professor, and scholar of ancient warfare. He has been a visiting professor at Hillsdale College since 2004. Hanson was awarded the National Humanities Medal in 2007 by President George W. Bush. Hanson is also a farmer (growing raisin grapes on a family farm in Selma, California) and a critic of social trends related to farming and agrarianism. He is the author most recently of *The Second World Wars: How the First Global Conflict Was Fought and Won*, [The Case for Trump](#) and the newly released [The Dying Citizen](#).

I don't normally include comments from an article but this one by "Task" should be heard as well:

"There is one item so titanic and so obvious that it garners more incredulity and consternation than all of the rest. And that is the stolen election. It is as though the magician, David Copperfield, one evening, when he felt inclined to outdo himself, had a fog and clouds descend over Manhattan Island and, in the morning, after the fog lifted, people realized that all the buildings were gone, or rearranged, and most of the residents disappeared. As strange as that story appears to be, it was superseded by something even stranger. People on the left, along with all the media applauded, explained, with incredulous talking points, that it was no trick at all but was, in fact, not a bit different than the once strange arrival of Martians in the NJ. Meadowlands, in 1938, as explained on the radio by Orson Wells, and very much believed by the listeners. In this case, however instead of entertaining the possibility of disbelief, incredulity, cheating and fraud, it was explained to be just the opposite and that there was nothing about the election which was unbelievable and was, as a matter of fact, explained as nothing other than mere extraordinary good fortune. Any discussion to the contrary was avoided by all major news agencies and journalists, leaving half the population serendipitously delighted and the other half dismayed and apoplectic, who were soon told that they were conspirators and must also be latent white supremacist racists, as well, who are in dire need of remedial education, to deal with their racist and senseless disbeliefs, or else would be subject to cancelled and other punishments. And so they have been."

"Not to be outdone by the aforementioned, after two years of vaccine mendacity by Lord Fauci, the CDC, the WHO and every major western democracy, frantically trying to outdo the fascism of the WWII Axis Powers, many Americans are still being forced to acquire additional jabs of Covid-19, or boosters, regardless of any natural immunity and despite the current evidence that the vaccines no longer work against the new, far less pathogenic, Omicron variety, anywhere in the world, or else told they will be denied permission to engage in most aspects of society, and, instead, face huge fines and incarceration, without having been granted acceptable exemptions, such as recently having illegally arrived through the unguarded an open southern border."

"Considering what has occurred in all of 2021 the sane should come to the conclusion that no one can get away from the insane world and what is happening. We can only become more powerful, purposeful and determined to deal with what will not go away in 2022."

Dr. Robert Malone interviewed 12/30/21 on Joe Rogan...must see

Dr. Robert Malone is the inventor of the nine original mRNA vaccine patents, which were originally filed in 1989 (including both the idea of mRNA vaccines and the original proof of principle experiments) and RNA transfection. Dr. Malone, has close to 100 peer-reviewed publications which have been cited over 12,000 times. Since January 2020, Dr. Malone has been leading a large team focused on clinical research design, drug development, computer modeling and mechanisms of action of repurposed drugs for the treatment of COVID-19. Dr. Malone is the Medical Director of The Unity Project, a group of 300 organizations across the US standing against mandated COVID vaccines for children. He is also the President of the Global Covid Summit, an organization of over 16,000 doctors and scientists committed to speaking truth to power about COVID pandemic research and treatment.

Long-term persistence of the SARS-CoV-2 spike protein: evidence and implications

Abstract: This paper discusses the recent study by Bansal et al. [1] on the detection of spike protein in persons vaccinated with the Pfizer mRNA vaccine. The most significant finding is that spike protein is found on exosomes, that is, cell-derived vesicles, for at least four months after the second injection. This surprisingly long persistence raises the prospect of sustained inflammation within and damage to organs which express the spike protein.

Notes and recommendations for conducting post-mortem examination (autopsy) of persons deceased in connection with COVID vaccination

Dr. Burkhardt and colleagues recently carried out a series of 17 autopsies on persons deceased within days to months of vaccination. Initially, none of these deaths had been attributed to the vaccines. Nevertheless, Dr. Burkhardt and colleagues found characteristic lesions in multiple organs which led them to conclude that in most patients the vaccines were likely the cause of death.
